The Palestinians:

The Palestinians, 1987-10-01 The Palestinian people are today treated as strangers in their own country and as refugees in Arab States Despite their rule by outsiders Ottoman Turks and from 1917 the British Palestinian Arabs had always remained the majority population within Palestine From the late 19th century increasing numbers of Zionist settlers came driven by savage pogroms in Eastern Europe and later by the Nazi Holocaust Despite fervent and increasingly desperate protests by Arabs Palestine was partitioned by the UN in 1947 and much of the area the Arabs retained was subsequently lost to the new Israeli State in the wars of 1948 9 and 1967 Today over 2 million Palestinians live under Israeli administration both within Israel itself and in the Occupied Territories of the West Bank and Gaza Strip while another 2 8 million live beyond the borders of Palestine unable to return Not only have many Palestinians been deprived of their homes and properties but they have been denied democratic rights and the hope of governing their own country Lacking the right to determine their own future they have sometimes struck back in frustration and despair Tile Palestinians the new Minority Rights Group report 24 not only outlines the history of the Palestinian people but their present situation inside and outside Israel It gives a detailed account of Palestinian disadvantage under Israeli administration in the fields of law local government civic amenities housing education health employment industry agriculture land ownership and settlement and water allocation and increasing suppression of dissent Newly written by David McDowall with a Foreword by Dr Claire Palley this report also contains maps statistics and an appendix outlining the main political groups within the Palestinian movement today A detailed and accurate account of the Palestinian people at a time when their sense of powerlessness has increased and when their position is especially precarious this report is essential reading for all those who feel concern for the future of the Palestinians Israel the Middle East and world peace Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

The Palestinian Refugees J. Ginat, Edward Joseph Perkins, 2001

As violence escalates in the Middle East a peace agreement between Israel and Palestine seems more elusive than ever Yet one thing remains clear without constructive dialogue such an agreement cannot occur This timely volume presents just such a dialogue It brings together opinions perspectives and research focused on one of the region's most complex and volatile problems the Palestinian refugee situation Based on a 1999 conference at the University of Oklahoma International Program Center Palestinian Refugees combines contributions from Israelis Palestinians Jordanians Egyptians Americans and Europeans In addition to focusing on the Palestinian refugees the essays present various proposals for solving the Palestinian problem Organized in two parts the volume presents both scholarly essays and position papers The scholarly essays place current issues in historical context and explore the Palestinian belief in the right of return and questions of appropriate compensation The position papers focus on policy and offer a variety of perspectives Concluding the volume is a special essay on public polls that gauge how Palestinians and Israelis view the circumstances of Palestinian refugees and what they feel about possible solutions

The Palestinian-Arab Citizens of Israel: Towards the Internationalisation of National Aspirations Ilham Shahbari, 2021-01-28

The relations between the Israeli state and its Arab citizens have been distorted by the perception that national security concerns require the full rights of citizenship to be restricted for members of the Arab community However the national security of the state can also be affected by a poor reputation in the international community which plays a vital role in sustaining the existence of the state This created a space for Arab intelligentsia to use internationalisation as a means to promote their cause This study is designed to explore and analyse the internationalisation process and its impact regarding the Arab community in Israel It is a beneficial source to academics experts policymakers journalists and other experts and interested members of the public

Report on the Palestinians Under Israeli Rule, 1986

ISRAEL AND THE PALESTINIANS: A DIFFERENT ISRAELI VIEW AMOS KENAN,1975 The Ancient History of the Palestinian People Kobi Shashoua,2017-03-06 The Palestinians are always mentioned in conjunction with the conflict in the Middle East Many nations are mentioned in various contexts but the Palestinians are synonymous with discrimination with deprivation with oppression with genocide with military occupation etc It seems that everyone on this planet has an opinion about the Palestinians ranging from the aboriginals to the polar wildernesses The opinion usually connects to the narrative of a conquered people robbed by a cruel conqueror that stole its land and crushed its hope But is this really so is that the real truth Or is it a worldwide years long campaign that is ingeniously conducted in order to achieve a different objective and the Palestinians are in fact victims but they are their own victims victims of an Arab policy which has a different objective and the Palestinians in fact are only a tool A tool that has already lost its value and therefore it is of no use today Only a few years ago the dominant conception was that in fact there is a conflict in the Middle East that overshadows world peace and that the origin of the conflict is between the State of Israel the occupying power and the burglarized Palestinians This conception argued simply that the achievement of a just and sustainable peace will occur the moment a Palestinian state is established and that a solution to the refugee problem will lead to a Spring of Nations and to global harmony This is a conception that has been dominant in the world for decades Many leaders have visited the region The USA the EU the Turks the Russians everybody mixed in and they all wanted to bring an end to the conflict Who remembers today the early buds of the Arab Spring except for perhaps a few leaders who refuse to see the reality and invest efforts to find peace formulas between Israel and the Palestinians while pointedly ignoring dozens of violent bloody conflicts that are happening when there is no solution in sight Like their predecessors they abuse their role by preferring to focus on a peripheral conflict while ignoring real problems and challenges that are flooding the world The secret is that there will never be peace between the Palestinians and the State of Israel because the Palestinians were formed for a very specific purpose which is to lead to the destruction of the State of Israel This is their sole objective at least that of the leaders In this book I do not take into account God forbid concepts taken from the politically correct which is so widespread today in the Western world and its devastating consequences will accompany us forever This is a book written out of the need to present to the courageous Western reader the truth the simple truth that is buried under mounds of lies This truth must be told and you must read it because eventually a wise man once said what begins with the Jews does not end with them only If you want to understand better the reality in which you live start with one small step read this book I promise you that if you are courageous enough to look at the truth you will be surprised **United Nations Seminar on Assistance to the Palestinian People** ,2003 *The Jewish Encyclopedia: Talmud-Zweifel* Isidore Singer,Cyrus Adler,1905 **The Jewish Encyclopedia: a Descriptive Record of the History, Religion, Literature, and Customs of the Jewish People from the Earliest Times to the Present Day** ,1907 **The Reagan Administration and the Palestinian Question** Juliana S.
