The Soul Of Tree:

The Soul Paul Ham, 2025-08-05 Wonderfully entertaining Michael McGirr Sydney Morning Herald I am absolutely in awe of this book Hugh Mackay AO Almost everyone thinks they have one but nobody knows what it is For thousands of years the soul was an organ an entity something that was part of all of us that survived the death of the body and ventured to the underworld or to heaven or hell The soul could be saved condemned tortured bought And then mysteriously the soul disappeared The Enlightenment called it the mind And today neuroscientists demonstrate that the mind is the creation of the brain The religious soul lives on in the minds of the faithful while the secular soul means whatever you want it to mean In *The Soul A History of the Human Mind* critically acclaimed historian Paul Ham embarks on a journey that has never been attempted to restore the idea of the soul to the human story and to show how belief in and beliefs arising from the soul mind have animated and driven the history of humankind The Soul is much more than a mesmerizing narrative and uniquely accessible way of explaining our story It transforms our understanding of how history works It persuasively demonstrates that the beliefs of the soul mind are the engines of human history

Soul Tree Beatrix Manuela Rentke, 2021-03-31 The selection of poems stories science research summaries and leisure activities illustrate the modern forms of the soul tree concept The models never rest upon the work of a single individual Leadership is essential but real change flows from a collective wave of collaboration Though languages and communication styles differ the desire to expand the networks towards peace and community work runs profoundly in us The valuable projects of One Tree Planted exemplary demonstrate the impact of global collaborative efforts One Tree Planted is a 501 c 3 nonprofit organization on a mission to make it simple for anyone to help the environment by planting trees Their projects span the globe and are done in partnership with local communities and knowledgeable experts to create an impact for nature people and wildlife Reforestation helps to rebuild forests after fires and floods provide jobs for social impact and restore biodiversity Many projects have overlapping objectives creating a combination of benefits that contribute to the UN s Sustainable Development Goals By focusing on collaborative sustainability from the ground up they hope to make a lasting and positive difference for the planet Source One Tree Planted Shelburne USA
