Trending Therapy Techniques:

Emerging Trends in the Diagnosis and Intervention of Neurodevelopmental Disorders Gupta, Sanjeev Kumar, Venkatesan, Srinivasan, Goswami, S.P., Kumar, Rajeev, 2018-10-26 Neurodevelopmental disorders encompass a group of conditions that can typically manifest during early childhood. These include intellectual disabilities, communication disorders, autism spectrum disorder (ASD), attention deficit hyperactivity disorder (ADHD), specific learning disorder (SLD), and motor disorders. Early identification and assessment can be a valuable tool in determining diagnosis, prognosis, functional abilities, and formulating clinical intervention for both children and adults with neurodevelopmental disorders. *Emerging Trends in the Diagnosis and Intervention of Neurodevelopmental Disorders* is an essential reference source that discusses and disseminates contributions covering recent trends in diagnosis, assessment, and intervention techniques. Featuring research on topics such as clinical linguistics, neural connectivity, and animal-assisted therapy, this book is ideally designed for speech pathologists, social workers, occupational therapists, psychologists, psychiatrists, neurologists, pediatricians, researchers, clinicians, and academicians seeking coverage on neural and developmental disorder identification and strategies for clinician support and therapies.

RECENT TRENDS IN MULTIDISCIPLINARY RESEARCH AND INNOVATION DR. SEEMA TRIPATHI, NAVEEN CHANDRA UPRETI, CHANDRA BHUSHA, SANJEEV TIWARI, 2025-08-22

Issues and Trends in Interdisciplinary Behavior and Social Science Ford Lumban Gaol, Fonny Hutagalung, Chew Peng, 2018-05-20 *Issues and Trends in Interdisciplinary Behavior and Social Science* contains papers presented at the 6th International Congress on Interdisciplinary Behavior and Social Science 2017 (ICIBSoS 2017) held 16-17 December 2017 in Yogyakarta, Indonesia. The contributions cover every discipline in all fields of social science and discuss many current trends and issues being faced by 21st-century society, especially in Southeast Asia. Topics include literature, family, culture, studies, behavior, psychology, and human development, religion, and values, religious coping, social issues such as urban poverty and juvenile crisis, driving behavior, well-being of women, career, women, career performance, job stress, happiness, social adjustment, quality of life among patients, the cosmetics business, etc. The issues are discussed using scientific quantitative or qualitative methods from different academic viewpoints.

Destructive Trends in Mental Health Rogers H. Wright, Nicholas A. Cummings, 2013-01-22 This book takes as its inspiration the assumption that the atmosphere of intellectual openness, scientific inquiry, aspiration towards diversity, and freedom from political pressure that once flourished in the American Psychological Association has been eclipsed by an ultra-liberal agenda in which voices of dissent, controversial points of view, and minority groups are intimidated, ridiculed, and censored. Chapters written by established and revered practitioners explore these important issues within the contexts of social change, the ways in which mental health services providers view themselves and their products, and various economic factors that have affected healthcare cost, structure, and delivery. In short, this book is intended to help consumers, practitioners, and policy makers to become better educated about a variety of

recent issues and trends that have significantly changed the mental health fields

Applications of Multi-Criteria Decision-Making Theories in Healthcare and Biomedical Engineering Ilker Ozsahin, Dilber Uzun Ozsahin, Berna Uzun, 2021-03-25 Applications of Multi Criteria Decision Making Theories in Healthcare and Biomedical Engineering contains several practical applications on how decision making theory could be used in solving problems relating to the selection of best alternatives The book focuses on assisting decision makers government organizations companies general public etc in making the best and most appropriate decision when confronted with multiple alternatives The purpose of the analytical MCDM techniques is to support decision makers under uncertainty and conflicting criteria while making logical decisions The knowledge of the alternatives of the real life problems properties of their parameters and the priority given to the parameters have a great effect on consequences in decision making In this book the application of MCDM has been provided for the real life problems in health and biomedical engineering issues Provides a comprehensive analysis and application multi criteria decision making methods Presents detail information about MCDM and their usage Covers state of the art MCDM methods and offers applications of MCDM for health and biomedical engineering purposes
