Troubled Water:

Troubled Water Seth M. Siegel, 2019-10-01 New York Times bestselling author Seth M Siegel shows how our drinking water got contaminated what it may be doing to us and what we must do to make it safe If you thought America s drinking water problems started and ended in Flint Michigan think again From big cities and suburbs to the rural heartland chemicals linked to cancer heart disease obesity birth defects and lowered IQ routinely spill from our taps Many are to blame the EPA Congress a bipartisan coalition of powerful governors and mayors chemical companies and drinking water utilities even NASA and the Pentagon Meanwhile the bottled water industry has been fanning our fears about tap water but bottled water is often no safer The tragedy is that existing technologies could launch a new age of clean healthy and safe tap water for only a few dollars a week per person Scrupulously researched *Troubled Water* is full of shocking stories about contaminated water found throughout the country and about the everyday heroes who have successfully forced changes in the quality and safety of our drinking water And it concludes with what America must do to reverse decades of neglect and play it safe inaction by government at all levels in order to keep our most precious resource safe

Troubled Waters Gary Chamberlain, 2008 Water although it covers more than two thirds of the earth s surface clean potable water is in critically short supply As more and more people globally show greater interest in what their religious traditions say about our natural world *Troubled Waters Religion Ethics and the Global Water Crisis* examines the central role of water in various traditions and rituals arriving at creative new ways to approach the growing water crisis worldwide Chamberlain outlines many of the current water problems and lays out clear principles for action that engaged citizens from various traditions can undertake to meet the growing water challenges through conservation and water management policies The book describes many religious practices from around the world that help sustain and restore water by using new technologies and reviving old ones Offering creative suggestions for both personal practices and group action Chamberlain advocates conservation preservation and restoration of our troubled waters
