**True Emotions** Mikko Salmela, 2014-08-15 True Emotions discusses several key problems in emotion research The question about the true nature of emotions focuses on the role of cognition in human emotions at different levels of analysis functional role types of processes and representations and neural implementation Truth to the self or authenticity has two meanings psychological and normative where the latter is analyzed as coherence between the evaluative content of an emotion and the subject's internally justified beliefs and values Truth to the world is argued to be a matter of correct evaluative representation of the emotional object on the one hand and the existence of the object or the actuality or accurate probability of the represented situation on the other hand Finally authenticity and truth are applied to analyses of the authenticity of occupational emotions and the constitution of sentimental values respectively Recommended reading for philosophers psychologists sociologists and gender researchers

**True to Our Feelings** Robert C. Solomon, 2008-10-02 We live our lives through our emotions writes Robert Solomon and it is our emotions that give our lives meaning What interests or fascinates us who we love what angers us what moves us what bores us all of this defines us gives us character constitutes who we are In True to Our Feelings Solomon illuminates the rich life of the emotions why we don't really understand them what they really are and how they make us human and give meaning to life Emotions have recently become a highly fashionable area of research in the sciences with brain imaging uncovering valuable clues as to how we experience our feelings But while Solomon provides a guide to this cutting edge research as well as to what others philosophers and psychologists have said on the subject he also emphasizes the personal and ethical character of our emotions He shows that emotions are not something that happen to us nor are they irrational in the literal sense rather they are judgements we make about the world and they are strategies for living in it Fear anger love guilt jealousy compassion they are all essential to our values to living happily healthily and well Solomon highlights some of the dramatic ways that emotions fit into our ethics and our sense of the good life how we can make our emotional lives more coherent with our values and be more true to our feelings and cultivate emotional integrity The story of our lives is the story of our passions We fall in love we are gripped by scientific curiosity and religious fervor we fear death and grieve for others we humble ourselves in envy jealousy and resentment In this remarkable book Robert Solomon shares his fascination with the emotions and illuminates our passions in an exciting new way
