True Friends:

True Friendship John Cuddeback, Ph.D.,2021-01-22 We all want true friends But how many of us really know what friendship is or where to find it In these pages philosopher John Cuddeback weaves together the timeless wisdom of Scripture of the ancient Greeks and the saints to map out the steep and beautiful path to man s greatest joy true friendship Following Aristotle s teachings on the unbreakable connection between happiness and virtuous living Cuddeback sees friendship at the very center of the human drama Although there are different kinds of friendship the deepest kind can only be achieved through a life of virtue and this is where the human person comes most fully alive True Friendship offers simple yet rich advice on how to tap into this reality in our own lives Such friendship demands much of us but it gives us even more as individuals and as a society Both the Old and New Testaments place a premium on friendship In the Christian vision the philosophers insights attain a broader supernatural perspective Christ transforms human friendship and expands it With help from the writings of Saints Thomas and Aelred Cuddeback discovers what lies at the heart of the Christian life the wondrous and unsurpassable reality of friendship with God in Jesus the Divine Friend who is at work in all our authentic friendships

Republicanism in Russia Oleg Kharkhordin, 2018-11-05 Marxism was the loser in the Cold War but Oleg Kharkhordin is not surprised that liberal democracy failed to take root after the Soviet Union s dissolution He suggests that Russians find a path to freedom by looking to the classical tradition of republican self government and civic engagement already familiar from their history and literature

Composition In The University Sharon Crowley, 1998-05-15 Composition in the University examines the required introductory course in composition within American colleges and universities According to Sharon Crowley the required composition course has never been conceived in the way that other introductory courses have

been as an introduction to the principles and practices of a field of study Rather it has been constructed throughout much of its history as a site from which larger educational and ideological agendas could be advanced and such agendas have not always served the interests of students or teachers even though they are usually touted as programs of study that students need If there is a master narrative of the history of composition it is told in the institutional attitude that has governed administration design and staffing of the course from its beginnings the attitude that the universal requirement is in place in order to construct docile academic subjects Crowley argues that due to its association with literary studies in English departments composition instruction has been inappropriately influenced by humanist pedagogy and that modern humanism is not a satisfactory rationale for the study of writing She examines historical attempts to reconfigure the required course in nonhumanist terms such as the advent of communications studies during the 1940s Crowley devotes two essays to this phenomenon concentrating on the furor caused by the adoption of a communications program at the University of Iowa Composition in the University concludes with a pair of essays that argue against maintenance of the universal requirement In the last of these Crowley envisions possible nonhumanist rationales that could be developed for vertical curricula in writing instruction were the universal requirement not in place Crowley presents her findings in a series of essays because she feels the history of the required composition course cannot easily be understood as a coherent narrative since understandings of the purpose of the required course have altered rapidly from decade to decade sometimes in shockingly sudden and erratic fashion The essays in this book are informed by Crowley s long career of teaching composition administering a composition program and training teachers of the required introductory course The book also draw on experience she gained while working with committees formed by the Conference on College Composition and Communication toward implementation of the Wyoming Resolution an attempt to better the working conditions of post secondary teachers of writing
