**33 Incredible True Stories of Survival** Martin K Ettington,2020-06-14 I have my own survival stories and maybe this is part of the reason why all these other stories interest me so much Everyone loves to learn about survival stories because it confirms the importance of the human spirit to live through trying and deadly situations I've included thirty three true life stories in this book The criteria was that the persons in these events had to make a conscious decision to live They decided not to give up and some did truly incredible things to survive We need to ask ourselves could we

do some of the things they did to survive For example how many of us could cut off a hand to live if we were trapped in the wilderness How many of us could survive a raft in the sea for a month to then be put into a POW prison and survive harsh treatment and torture there These people have all illustrated the power of the human spirit to live through these experiences And these experiences made them more confident people and better able to live through difficult situations in the future These stories are divided up into five categories Survival In War Survival in the Wilderness and Mountains Survival in the Ocean Survival in the Arctic and Antarctic Surviving the Desert More Survival Stories for Ones which don t fit a category

Myers,2022-10-31 As younger generations drift away from evangelical churches the number of religiously unaffiliated young adults grows Is the drift because of politics personal morality rebelliousness culture wars or something else In this project 16 young adults from the Churches of Christ participate in qualitative interviews over a five year span They describe messages they learned about success and survival from their faith communities as children and how they have embraced and reinterpreted those messages into helpful life principles as adults The resulting study explores issues of ethnicity in evangelical borderland communities and contrasts Latinx narratives with white narratives in religious and educative contexts Findings also revealed gendered narratives class based narratives and the glaring absence of helpful narratives around sexuality filtered through the lenses of religion and education The central finding of the interviews is this participants experienced the Church of Christ as rewarding conformity with community a strategy when it works which secures the future of the denomination and cements a conservative doctrine in the next generation of leadership However the study concludes that true survival narratives were the narratives participants constructed in response to the narratives provided by Churches of Christ
