## Trumbull Park:

**As Long as They Don't Move Next Door** Stephen Grant Meyer, 2001 The first full length national history of American race relations examined through the lens of housing discrimination Jacket *Selling the Race* Adam Green, 2007 Black Chicagoans were at the centre of a national movement in the 1940s and 50s when African Americans across the country first started to see themselves as part of a single culture Green argues that this period engendered a unique cultural and commercial consciousness fostering ideas of racial identity that remain influential **Troublemakers** Erik S. Gellman, 2020-01-20 What does democracy look like And when should we cause trouble to pursue it *Troublemakers* fuses photography and history to demonstrate how racial and economic inequality gave rise to a decades long struggle for justice in one American city In dialogue with 275 of Art Shay s photographs Erik S Gellman takes a new look at major developments in postwar US history the Second Great Migration white flight and neighborhood and street conflicts as well as shifting party politics and the growth of the carceral state The result is a visual and written history that complicates and even upends the morality tales and popular memory of postwar freedom struggles Shay himself was a troublemaker seeking to unsettle society by illuminating truths that many middle class white media political and businesspeople pretended did not exist Shay served as a navigator in the US Army Air Forces during World War II then took a position as a writer for Life Magazine But soon after his 1948 move to Chicago he decided to become a freelance photographer Shay wandered the city photographing whatever caught his eye and much did His lens captured everything from private moments of rebellion to era defining public movements as he sought to understand the creative and destructive energies that propelled freedom struggles in the Windy City Shay illuminated the pain and ecstasy that sprung up from the streets of Chicago while Gellman reveals their collective impact on the urban fabric and on our national narrative This collaboration offers a fresh and timely look at how social conflict can shape a city and may even inspire us to make trouble today [To Live Peaceably Together](#) Tracy E. K'Meyer, 2022-04-14 A groundbreaking look at how a predominantly white faith based group reset the terms of the fight to integrate US cities The bitterly tangled webs of race and housing in the postwar United States hardly suffer from a lack of scholarly attention But Tracy K Meyer s *To Live Peaceably Together* delivers something truly new to the field a lively examination of a predominantly white faith based group the Quaker aligned American Friends Service Committee AFSC that took a unique and ultimately influential approach to cultivating wider acceptance of residential integration Built upon detailed stories of AFSC activists and the obstacles they encountered in their work in Chicago Philadelphia and Richmond California *To Live Peaceably Together* is an engaging and timely account of how the organization allied itself to a cause that demanded constant learning reassessment and self critique K Meyer details the spiritual and humanist motivations behind the AFSC its members shifting strategies as they came to better understand structural inequality and how those strategies were eventually adopted by a variety of other groups Her fine grained investigation of the cultural ramifications of housing

struggles provides a fresh look at the last seventy years of racial activism *Book Bulletin* Chicago Public Library,1918  
*Racial Democracy and the Black Metropolis* Preston H. Smith,2012 How a black elite fighting racial discrimination reinforced class inequality in postwar America *Official Basketball Rules* ,1922 *Using Informational Text to Teach A Raisin in the Sun* Audrey Fisch,Susan Chenelle,2016-02-12 The Common Core State Standards mean major changes for language arts teachers particularly the emphasis on informational text How do we shift attention toward informational texts without taking away from the teaching of literature The key is informational texts deeply connected to the literary texts you are teaching Preparing informational texts for classroom use however requires time and effort Using Informational Text to Teach Literature is designed to help In this second volume the first volume is on *To Kill a Mockingbird* we offer informational texts connected to Lorraine Hansberry's *A Raisin in the Sun* Readings range in genre commencement address historical and cultural analysis government report socioeconomic research study and Supreme Court decision and topic housing discrimination past and present abortion the racial and cultural politics of hair socioeconomic mobility and inequality the violence associated with housing desegregation and the struggle against the legacy of systemic racism Each informational text is part of a student friendly unit with reading strategies and vocabulary writing and discussion activities Teachers need to incorporate nonfiction in ways that enhance their teaching of literature The *Using Informational Text to Teach Literature* series is an invaluable supportive tool **Official--Automobile Blue Book** ,1927 **Report** Chicago (Ill.) Department of Health,1926 **Beyond the Usual Beating** Andrew S. Baer,2020-04-10 The malign and long lasting influence of Chicago police commander Jon Burge cannot be overestimated particularly as fresh examples of local and national criminal justice abuse continue to surface with dismaying frequency Burge's decades long tenure on the Chicago police force was marked by racist and barbaric interrogation methods including psychological torture burnings and mock executions techniques that went far beyond the usual beating After being exposed in 1989 he became a symbol of police brutality and the unequal treatment of nonwhite people and the persistent outcry against him led to reforms such as the abolition of the death penalty in Illinois But Burge hardly developed or operated in a vacuum as Andrew S Baer explores to stark effect here He identifies the darkness of the Burge era as a product of local social forces arising from a specific milieu beyond the nationwide racialized reactionary fever of the 1960s and 1970s Similarly the popular resistance movements that rallied in his wake actually predated Burge's exposure but cohered with unexpected power due to the galvanizing focus on his crimes and abuses For more than thirty years a shifting coalition including torture survivors their families civil rights attorneys and journalists helped to corroborate allegations of violence free the wrongfully convicted have Burge fired and incarcerated and win passage of a municipal reparations package among other victories *Beyond the Usual Beating* reveals that though the Burge scandal underscores the relationship between personal bigotry and structural racism in the criminal justice system it also shows how ordinary people held perpetrators accountable in the face of intransigent local power *Bulletin of the*
