The Gospel Trumpet, 1920

The Last Trumpet James Arthur Brownlow, 1996 The nineteenth century English slide trumpet was the last trumpet with the traditional sound of the old classic trumpet The instrument was essentially a natural trumpet to which had been added a movable slide with a return mechanism It was England's standard orchestral trumpet despite the dominance of natural and ultimately valved instruments elsewhere and it

remained in use by leading English players until the last years of the century The slide trumpet s dominating role in nineteenth century English orchestral playing has been well documented but until now the use of the instrument in solo and ensemble music has been given only superficial consideration Art Brownlow s study is a new and thorough assessment of the slide trumpet It is the first comprehensive examination of the orchestral ensemble and solo literature written for this instrument Other topics include the precursors of the nineteenth century instrument its initial development and subsequent modifications its technique and the slide trumpet s slow decline Appendices include checklists of English trumpeters and slide trumpetmakers *Fifty-two stories for children, ed. by A.H. Miles* Alfred Henry Miles,1893 **The Muted Trumpet's Call** Chuck Knox,2011 Stories from veterans of every branch of the military who served in WWII from letters diaries and live interviews or recorded by their families **Trumpet's Song** DP Fitzsimons,2017-08-07 He awoke in total darkness Alone in a world of cannibalistic beasts and four legged fiends with jet black eyes Trumpet prefers to travel alone Friends turn Friends die Friends find their destiny at the end of his blade He prefers his music both the music he sometimes plays with his trumpet and the other music he hears in his head walking the abandoned streets of the dead cities When the girl comes into his life he is forced to choose A simple life alone living by his father s rules or a perilous journey destined for a bloody end

The Music and History of the Baroque Trumpet Before 1721 Don L. Smithers,1973 This book surveys the related types of trumpets used from the period of Monteverdi through the era of Bach and Handel The author examines the repertory of trumpet music available before the appearance of Bach s Second Brandenburg Concerto in F Major and provides a detailed analysis of the working conditions of trumpet players in various European countries during this period The choice of 1721 in this first study of the music history and manufacture of the trumpet as it existed before the Industrial Revolution was neither accidental nor arbitrary The earliest and only dated source of J S Bach s singular Second Brandenburg Concerto in F Major is both a musical and a chronological boundary between two quite different periods in the trumpet s long history
