Syrian-Armenian Women Migrants in Armenia Anahid Matossian, 2025-01-23 After the outbreak of the 2011 Syrian War a number Syrian Armenians who had lived in the territory for generations fled to the Republic of Armenia This book traces the experiences of Syrian Armenian women as they navigated their changing and gendered identities from their adopted homeland to their socially constructed new ancestral home in Armenia The rich ethnographic research conducted over 6 years by the author reveals how women adjusted to new lives in Armenia supported themselves through gendered work such as embroidery production yet mostly challenge simple identities such as refugee or repatriate existing in a state of what the author terms painful belonging The book further reveals crucial insight into how experiences and traumatic memories of war in Syria and the Nagorno Karabakh conflict reciprocally shape each other in the minds of the women interviewed

Papyrus ,1910 Destination Detroit Rashmi Luthra, 2024-01-04 Deindustrialized cities in the

United States are at a particular crossroads when it comes to the contest over refugees Do refugees represent opportunity or danger These cities are in desperate need to stem population and resource loss problems that an influx of refugees could seemingly help address However the cities are simultaneously dealing with local communities that are already feeling internally displaced by economic and technological flux For these existing citizens the prospect of incoming refugee populations can be perceived as a threat to financial cultural and personal security Few U S locations provide a more vivid case study of this fight than Metro Detroit where competing interest groups are waging war over the meaning of the figure of the refugee This book dives deeply into the discourse on refugees occurring among various institutions in Metro Detroit The way in which local institutions talk about refugees gives us vital clues as to how they are negotiating competing pressures and how the city overall is negotiating competing imperatives Indeed this local discourse gives us a crucial glimpse into how U S cities are defining and redefining themselves today The figure of the refugee becomes a slate on which groups with varied interests write their stories aspirations and fears Consequently we can figure out from local refugee discourses the ongoing question of what it means to be a Metro Detroiter and by extension what it means to be a revitalizing U S city in this age

*The New Near East*, 1924      **Refugee Pathways to Peace** Janet Mancini Billson, 2024-12-15 This book provides perspectives from different refugee groups and the resettlement agencies that smooth their transition into a new life context It discusses how they overcome displacement and cope with trauma and how they remain vulnerable to marginality and delays in economic independence

*A Red Line in the Sand* David A. Andelman, 2021-01-05 A longtime CNN columnist astutely combines history and global politics to help us better understanding the exploding number of military political and diplomatic crises around the globe The riveting and illuminating behind the scenes stories of the world s most intense red lines from diplomatic and military challenges at particular turning points in history to the ones that set the tone of geopolitics today Whether it was the red line in Munich that led to the start of the Second World War to the red lines in the South China Sea the Korean Peninsula Syria and the Middle East As we traverse the globe Andelman uses original documentary research previously classified material and interviews with key players to help us understand the growth the successes and frequent failures that have shaped our world today Andelman provides not just vivid historical context but a political anatomy of these red lines How might their failures be prevented going forward When and how can such lines in the sand help preserve peace rather than tempt conflict A Red Line in the Sand is a vital examination of our present and the future where does diplomacy end and war begin It is an object lesson of tantamount importance to every leader diplomat citizen and voter As America establishes more red lines than it has pledged to defend every American should understand the volatile atmosphere and the existential stakes of the red web that encompasses the globe
