Werewolves Touch:

Sexual Appetites of Werewolves Donna Fletcher, 2024-11-21 Olivia doesn't believe werewolves exist. Her belief is about to be challenged. Olivia Stanton, a rational and dedicated wildlife biologist, has always trusted science over superstition. So when Langford Publishing proposes an article titled *The Sexual Appetites of Werewolves*, she's unimpressed until she learns it comes with a weeklong stay at the renowned MacMadadh Wolf Preserve in the Scottish Highlands. A longtime dream of hers, the preserve could hold the key to her career. Wolves are Olivia's passion, leaving little room for distractions, especially romantic ones. But meeting Laird Tiernan, the handsome owner of the preserve with an equally intense devotion to wolves, sparks an instant undeniable attraction that neither can deny. Though determined to ignore it, discussing the intimate myths surrounding werewolves only fuels the chemistry simmering between them. As a light snowfall transforms into an unexpected snowstorm, Olivia finds herself secluded in Tiernan's castle. There, he reveals a family secret that shakes her to her core. He claims to be a werewolf and that all the wolves on his preserve are too. She is caught between disbelief and the unsettling possibility that he may be telling the truth. Either way, her stay at the preserve has become far more complicated than she ever anticipated. With every passing day, Olivia's growing bond with Tiernan challenges her sense of logic, opening her to a world she never thought possible. Torn between reason and desire, she faces a choice she never thought she'd have to make: stay rational or take a leap of faith and risk her heart to a werewolf.

[The Magic of Shapeshifting](#) Rosalyn Greene, 2000-09-01 Shapeshifters are people with animal medicine powers—people who can connect with and use their animal powers. Those with access to this magical power can shift mentally, astrally, or even physically into their power animal or totem. Rosalyn Greene's ability to shift both mentally and astrally, combined with her extensive study of the secret shapeshifting folklore, has resulted in this fascinating examination of all aspects and forms of shifting. In *The Magic of Shapeshifting*, Rosalyn Greene guides us through the levels of reality that lie outside our physical world and into the infinite universe that exists both within and beyond the limited boundaries of our senses. We read about opening to our inner animal self, normally dwelling within the subconscious and letting it pervade more of our conscious waking mind. Detailed explanations and exercises teach shifters about their animal side, the animal spirit guide, and how we can become shifters. She shows us how to distinguish powerful visions, anxiety attacks, and imagination from real shifting, as well as how to recognize the warning signs of an imminent shift. Since there can be dangers and risks on both the mundane and psychic levels when we pursue the path of a shifter, many of the potential dangers associated with specific practices are carefully outlined. *Shapeshifting* links us with both the fundamental power of animals and with the higher self, our true being, the soul. We learn to release self-limiting ideas of our true nature and expand into a clear, conscious connection with the divine, eternal soul whose reality is beyond whatever mind or even body we happen to possess at the moment. *Shapeshifting* is a spiritual journey, a very tough one but very rewarding. It has a purpose and reality far beyond simply using shifter abilities for earthly benefits. It can lead us through the
