**Youth Programs in Art Museums** Heather Maxson, Susan McCullough, Ai Wee Seow, 2025-11-21 *Youth Programs in Art Museums* examines the processes and motivation behind the creation of thoughtful offerings for youth audiences by museums around the world. With over 50 contributors representing 20 countries, the book considers how museums can be relevant to youth audiences through the development and implementation of programs that respond to their interests and needs and are grounded in cultural contexts. Program outcomes explored include developing young artists, civic engagement, LGBTQIA advocacy, and multiple language learners. As a whole, the volume demonstrates how museums are creating engaging, enriching programs that enable youth to more deeply understand themselves, their culture, and the world around them. The editors and contributors show that if museums can plan and deliver the right kind of offerings, they will find that youth are curious, creative, and resilient. They will also discover that youth have the potential to become lifelong engaged participants in their own art culture and communities, in turn helping museums to be more inclusive, responsive, and community-oriented. *Youth Programs in Art Museums* will appeal to academics and students engaged in the study of museums, art, and education. It will also be of interest to museum professionals as well as professionals interested in working with youth in after-school settings.

**Psychological Support for Refugee Adolescents** Rachel Hoare, 2025-11-24 *Psychological Support for Refugee Adolescents* demonstrates the therapeutic powers of the expressive arts to address the specific needs of adolescent refugees in a trauma-informed and culturally sensitive manner. Chapters are organized into sections tailored to support the professionals involved in caring for adolescent refugees, including both psychotherapists and non-psychotherapists, with practical advice that is accessible across disciplines. Through richly detailed case studies featuring diverse refugee experiences, this book demonstrates how creative modalities, including visual arts, music, movement, and embodied practices, can be expertly tailored to honour cultural contexts while also addressing trauma, symptoms, sleep disturbances, isolation, and other challenges. An essential read for any professional involved in support for adolescent refugees, this book will also be of interest to arts and expressive therapists and mental health practitioners more broadly. The online support material for this book includes downloadable and photocopiable activities tailored for application to both psychotherapeutic and more general wellbeing support, aiding readers in their work with refugee adolescents.
