The Master Thinkers: Vignettes in the History of Science ... Robert John Harvey Gibson,1936 **The Master Thinkers** André Glucksmann,1980 **French Intellectuals Against the Left** Michael Scott Christofferson,2004 Christofferson argues that French anti totalitarianism was the culmination of direct democratic critiques of communism revisions of the revolutionary project after 1956 He offers an alternative interpretation for the denunciation of communism Marxism by the French intellectual left in the late 1970s *The Master Thinkers* R. J. Harvey Gibson,1938 *The Master Thinkers; Vignettes in the History of Science, with Portraits* Robert John Harvey-Gibson,1958 **The master thinkers in science**,1940 **Foucault and Neoliberalism** Daniel Zamora,Michael C. Behrent,2016-01-06 Michel Foucault s death in 1984 coincided with the fading away of the hopes for social transformation that characterized the postwar period In the decades following his death neoliberalism has triumphed and attacks on social rights have become increasingly bold If Foucault was not a direct witness of these years his work on neoliberalism is nonetheless prescient the question of liberalism occupies an important place in his last works Since his death Foucault s conceptual apparatus has acquired a central even dominant position for a substantial segment of the world s intellectual left However as the contributions to this volume demonstrate Foucault s attitude towards neoliberalism was at least equivocal Far from leading an intellectual struggle against free market orthodoxy Foucault seems in many ways to endorse it How is one to understand his radical critique of the welfare state understood as an instrument of biopower Or his support for the pandering anti Marxism of the so called new philosophers Is it possible that Foucault was seduced by neoliberalism This question is not merely of biographical interest it forces us to confront more generally the mutations of the left since May 1968 the disillusionment of the years that followed and the profound transformations in the French intellectual field over the past thirty years To understand the 1980s and the neoliberal triumph is to explore the most ambiguous corners of the intellectual left through one of its most important figures

The Rational Kernel of the Hegelian Dialectic Alain Badiou,Joel Bellassen,Louis Mossot,2011 *The Rational Kernel of the Hegelian Dialectic* is the last in a trilogy of political philosophical essays preceded by *Theory of Contradiction* and *On Ideology* written during the dark days at the end of the decade after May 68 With the late 1970 s triumphant restoration in Europe China and the United States Badiou and his collaborators return to Hegel with a Chinese twist By translating annotating and providing commentary to a contemporaneous text by Chinese Hegelian Zhang Shi Ying Badiou and his collaborators attempt to diagnose the status of the dialectic in their common political and philosophical horizon Readers of Badiou s more recent work will find a crucial developmental step in his work in ontology and find echoes of his current project of a communist hypothesis This translation is accompanied by a recent interview that questions Badiou on the

discrepancies between this text and his current thought on the nature of dialectics negativity modality and his understanding of the historical political and geographical distance that his text introduces into the present *The Arena* ,1908

Heidegger and French Philosophy Tom Rockmore,2002-09-11 Martin Heidegger s impact on contemporary thought is important and controversial However in France the influence of this German philosopher is such that contemporary French thought cannot be properly understood without reference to Heidegger and his extraordinary influence Tom Rockmore examines the reception of Heidegger s thought in France He argues that in the period after the Second World War due to the peculiar nature of the humanist French Philosophical tradition Heidegger became the master thinker of French philosophy Perhaps most importantly he contends that this reception first as philosophical anthropology and later as postmetaphysical humanism is systematically mistaken *The Summer of Theory* Philipp Felsch,2021-09-16 Theory a magical glow has emanated from this word since the sixties Theory was more than just a succession of ideas it was an article of faith a claim to truth a lifestyle It spread among its adherents in cheap paperbacks and triggered heated debates in seminar rooms and caf s The Frankfurt School Structuralism Post Structuralism Adorno Derrida Foucault these and others were the exotic schools and thinkers whose ideas were being devoured by young minds But where did the fascination for dangerous thoughts come from In his magnificently written book Philipp Felsch follows the hopes and dreams of a generation that entered the jungle of difficult texts His setting is West Germany in the decades from the 1960s to the 1990s in a world frozen in the Cold War movement only came from big ideas It was the time of apocalyptic master thinkers upsetting reading experiences and glamorous incomprehensibility As the German publisher Suhrkamp published Adorno s *Minima Moralia* and other High Theory works of the Frankfurt School a small publisher in West Berlin Merve Verlag provided readers with a steady stream of the subversive new theory coming out of France By following the adventures of the publishers who provided the books and the reading communities that consumed and debated them Philipp Felsch tells the remarkable story of an intellectual revolt when the German Left fell in love with Theory **The Twentieth Century Magazine** Benjamin Orange Flower,1910

Our Wonder World ,1914 **United States of America V. Carruthers** ,1945 **Overland Monthly and The Out West Magazine** ,1928 *Current Opinion* Frank Crane,Edward Jewitt Wheeler,1924
