## **The Masters Of Solitude:**

The Masters of Solitude Marvin Kaye, Parke Godwin, 1985-01      Mind is the Master James Allen, 2009-12-24 The classic books of the motivational visionary collected for the first time in a single volume Featuring nineteen beloved works including As a Man Thinketh Eight Pillars of Prosperity The Mastery of Destiny and From Poverty to Power here is the first ever comprehensive and definitive collection of the books of self help pioneer James Allen Formatted in a large easy to read workbook size with fully redesigned and reset text Mind Is the Master provides a life time s worth of wisdom and guidance from one of history s leading voices of self affirming and motivational philosophy Mind Is the Master compiles Allen s most celebrated books along with little known gems and posthumous works such as Foundation Stones to Happiness and Success and Light on Life s Difficulties awaiting discovery by a whole new generation of readers As a special bonus Mind Is the Master includes a rare remembrance of James Allen by his wife and intellectual partner Lily Allen It is an invaluable window on the life and inner world of a writer whose insights touched millions of readers      *Principles of Sufism* Nahid Angha, 1994 A simple introduction to the mystical branch of Islam called Sufism Written with the general reader in mind who has no prior knowledge of the subject the book explains the twelve basic principles of sufism in a non technical easy to understand style Ideally suited for the classroom as well as the spiritually oriented reader      **The Finger and the Moon** Alejandro Jodorowsky, 2016-10-10 Jodo s interpretations of the stories and koans of Zen master Ejo Takata Offers more than 60 Zen teaching tales initiatory stories koans and haikus for self realization and spiritual awakening Each story or koan is accompanied by the author s lucid and penetrating commentary blending the same burlesque slapstick and sublime insight that characterize his films Explains how one must see beyond the words of the story to grasp the spiritual insights they contain Before he became the film maker and graphic novel author known throughout the world today Alejandro Jodorowsky studied with Zen master Ejo Takata in Mexico City In The Finger and the Moon Jodorowsky recounts how he became Takata s student and offers his interpretations of the teaching tales initiatory stories koans and enigmatic haikus he learned at the feet of his great and humble teacher Blending the same burlesque slapstick and sublime insight that characterize his films such as El Topo and The Holy Mountain each story is accompanied by the author s lucid and penetrating commentary as well as insights from ancient Zen teachers Yet their most significant gift to the reader is the sudden shock of realization they impart that can lead to spiritual awakening Jodorowsky notes that most people are incapable of self realization because of their fear of the void within an emptiness they seek to fill with noise and chatter He shows that Zen teachings can be compared to a finger pointing at the moon directing you to awaken to your true nature the Buddha within The danger lies in mistaking the pointing finger for the moon mistaking the words for the essential enlightenment which can only be grasped once words have been surpassed Unlike most tales these stories are intended to evoke silent illumination as true awakening and self realization cannot occur until the mind has been stilled      *Science Fiction Magazine Story Index, 1926-1995* Terry A.

Murray,1999 Since the appearance of the first science fiction magazine in 1926 thousands of short stories have been published in periodicals devoted to the genre These stories cover a wide range of subjects from spacecraft to the human condition and feature little known authors as well as masters like Ellison and Asimov In the past finding which issue of what magazine ran a certain story was nearly impossible This much needed reference tool provides valuable assistance in the daunting task of locating short stories published in science fiction magazines providing exhaustive indexes to magazines authors and titles allowing a variety of options for research on 34 000 stories appearing in nearly 5 000 issues of 133 genre magazines Stories from all major American publications as well as from several minor periodicals are indexed Also included is an appendix of the best known and most prolific contributors giving the titles of all their stories in this work necessary because the huge author index does not show titles A guide to how to use this book clarifies its features for the researcher
