The Mercury Reader 2005:

The Border Reader Gilberto Rosas, Mireya Loza, 2023-09-18 The Border Reader brings together canonical and cutting edge humanities and social science scholarship on the US Mexico border region. Spotlighting the vibrancy of border studies from the field's emergence to its enduring significance, the essays mobilize feminist, queer, and critical ethnic studies perspectives to theorize the border as a site of epistemic rupture and knowledge production. The chapters speak to how borders exist as regions where people and nation states negotiate power, citizenship, and questions of empire. Among other topics, these essays examine the lived experiences of the diverse undocumented people who move through and live in the border region, trace the gendered and sexualized experiences of the border, show how the US Mexico border has become a site of illegality where immigrant bodies become racialized and excluded, and imagine anti and post border futures. Foregrounding the interplay of scholarly inquiry and political urgency stemming from the borderlands, *The Border Reader* presents a unique cross section of critical interventions on the region. Contributors: Leisy J. Abrego, Gloria E. Anzaldúa, Martha Balaguera, Lionel Cantón, Leo R. Chavez, Raquel Fernández, Rosa Linda Fregoso, Roberto G. Gonzales, Gilbert G. It brings together the work of over 30 scholars in this discipline, including Janet Davis, Helen Stoddart, and Peta Tait, to highlight and address the field's key historical, critical, and theoretical issues. It is organized into three accessible sections: Perspectives, Precedents, and Presents, which approach historical aspects, current issues, and the future of circus performance. The chapters, grouped together into 13 theme-based sub-sections, provide a clear entry point into the field and emphasize the diversity of approaches available to students and scholars of circus studies. Classic accounts of performance, including pieces by Philippe Petit and Friedrich Nietzsche, are included alongside more recent scholarship in the field. Edited by two scholars whose work is strongly connected to the dynamic world of performance, *The Routledge Circus Studies Reader* is an essential teaching and study resource for the emerging discipline of circus studies. It also provides a stimulating introduction to the field for lovers of circus. **The Mercury Reader**, **Books In Print 2004-2005** Ed.
