**Theatre as a Medium for Children and Young People: Images and Observations** Shifra Schonmann,2006-07-10

This book is a journey into the dual territory of educational and theatrical settings It advances the knowledge in these settings by touching upon provocative questions by dealing with the limitations and challenging the new possibilities of theatre for young people It is an attempt to bring intellectual rigor and some theoretical perspectives drawn from recent theatre and aesthetic theory to the field of theatre for young people *Theatre and Event* A. Kear,2013-10-23 In the beginning of the 21st century European theatre makers have sought to consider the disastrous events of the 20th century as the unfinished business of the contemporary In this book Kear argues that by thinking through the logic of the event contemporary performance offers an affective interrogation of the event of the European century **The Theatrical Image**

**Creative Engagements With Children Inside and Outside School Contexts** Elena Xeni,2020-05-06 Definitions of creativity the nature of creativity ways to creatively engage with children in and out of classroom are some of the critical issues discussed in this collection of papers in an attempt to analyse and understand creativity inside and outside school contexts *Mosaic Theatre* Lael Jay Woodbury,1927 *The Total Work of Art in European Modernism* David Roberts,2011-11-15 In this groundbreaking book David Roberts sets out to demonstrate the centrality of the total work of art to European modernism since the French Revolution The total work of art is usually understood as the intention to reunite the arts into the one integrated whole but it is also tied from the beginning to the desire to recover and renew the public function of art The synthesis of the arts in the service of social and cultural regeneration was a particularly German dream which made Wagner and Nietzsche the other center of aesthetic modernism alongside Baudelaire and Mallarm The history and theory of the total work of art pose a whole series of questions not only to aesthetic modernism and its utopias but also to the whole epoch from the French Revolution to the totalitarian revolutions of the twentieth century The total work of art indicates the need to revisit key assumptions of modernism such as the foregrounding of the autonomy and separation of the arts at the expense of the countertendencies to the reunion of the arts and cuts across the neat equation of avant gardism with progress and deconstructs the familiar left right divide between revolution and reaction the modern and the antimodern Situated at the interface between art religion and politics the total work of art invites us to rethink the relationship between art and religion and art and politics in European modernism In a major departure from the existing literature David Roberts argues for twin lineages of the total work a French revolutionary and a German aesthetic which interrelate across the whole epoch of European modernism culminating in the aesthetic and political radicalism of the avant garde movements in response to the crisis of autonomous art and the accelerating political crisis of European societies from the 1890s forward
