## **Their Value To God:**

**God, Suffering, and the Value of Free Will** Laura W. Ekstrom, 2021-02-23 For many of us the issue of whether or not God exists is among the most perplexing and profound questions of our lives Laura Ekstrom examines this issue in light of ubiquitous human suffering When we survey the world we observe an enormous amount of pain including virtually unspeakable kinds of maltreatment and agony many instances of which seem patently to be unfair unearned and pointless In light of these observations this book argues that it is reasonable to conclude that God does not exist Ekstrom shows the power of arguments from evil for atheism while giving a thorough critical examination of attempts to answer them

*Jonathan Edwards' Concerning The End for Which God Created the World* Walter J. Schultz, 2020-01-20 This book is an exposition of Jonathan Edwards argumentation in his dissertation Concerning the End for Which God Created the World In addition to stating Edwards theses regarding God s end and motivation in creation this book identifies and discusses the assumptions of his argumentation analyses and explains its crucial components and explores its philosophical implications These implications include a version of exemplarism i e the nature of God s ideas for creation dispositionalism i e the characteristics of God which explain God s motivation and emanationism i e what God shares of himself with persons who have a living faith in Christ These entail a view of idealism i e a view of the ultimate ontological ground of the universe God s temporal nature continuous creationism i e how God sustains creation a version of panentheism i e how God who is infinite is related to creation from which God is absolutely distinct and occasionalism i e the nature of causation of physical events or states of creation These concepts and what they entail constitute a complete metaphysical system providing a thoroughgoing divine action understanding of the foundation of reality For Jonathan Edwards God s acting according to his plans for his purposes in Christ is fundamental to all things Were we to have an understanding of how the fundamental concepts of science mathematics and ordinary experience are related in reality to the God who acts for his original ultimate end in creation sustaining the universe while providentially guiding its affairs and working redemption we would have the opportunity to develop these as he had hoped he pointed the way for others to follow
