Truth Of Creation And Speculation About Evolution:

Truth Johnny George, 2017-11-27 As shattered fragments of a buried mirror may be cleaned and pieced together to portray a reflection so the book TRUTH clears away dirt and muck of untruth The author fits shards of knowledge like pieces of a puzzle to display what may be a very real reflection of ultimate high level truth In a search that has spanned over five decades there has been no agenda other than eliminating untruth to reveal a clear image of reality Pertinent facets of many many sources have been inter connected in the creation of this book The Bible Eastern philosophy the Dead Sea scrolls the Nag Hammadi texts the archives of Edgar Cayce and Seth American Indian Wisdom ancient Toltec knowledge science physics and quantum mechanics decades of magazine and news articles and such modern thinkers teachers and writers as Rhonda Byrne Depak Chopra David Deutsch Brian Greene Bruce Lipton Eckhart Tolle Neale Donald Walsch and many others TRUTH offers evidence that awareness of certain knowledge may awaken humanity to our natural progression in spirit Signs point to a path that can bring us to merge in a collective consciousness where the oneness of all may be realized where separate beliefs both spiritual and scientific may coalesce and be transcended where we may evolve to find our true nature as nonviolent spiritual beings When many signs point the same direction who would follow the one that doesn't When answers add up and make sense why do so many believe things that don't TRUTH has been said to be among the most informative the most comprehensive books ever written and has even been called the best book ever This new second edition is vastly improved over the first It includes a Preface with information about where the book came from and why it was written The new version also contains the results of more biblical research and quotes and many enhancements and additional details throughout

Freaky Truths About God & Evolution Harold Stewart, 2014-09-12 Theologians philosophers and scientists all have differing views of the world but what is the real abiding reality Most are afraid to cross the streams so to speak of these distinct disciplines but suppose we could gather together a group of these adherents to discuss the questions that people consider to taboo to talk about in public like the relationship of faith fact or fantasy Where would that conversation its tangents or derivatives lead This book attempts to answer those questions of the mind that every rational person has at some point in their life To do that we must engage in discussions about reality absurdity perception Truth consciousness as well as Godel's preverbal incompleteness While discussing the origin of the cosmos the topic will migrate from Transformers and UFO's to how multidimensionality could be related to miracles The theme of the book examines the freaky truths of the relationship of these divergent disciplines and beliefs As such the main characters will be the Sovereign of the Universe and His history verses that of the scientific and philosophical communities In answering the Problem of Evil alone worth the cost we invariably meet the Hostis humani generis the enemy of humanity Satan Hopefully a rocking good time will be had by everyone who ventures to buy the book P S Don't be surprised if you find a few spooky parts as well
