## Wer War Brecht:

*War Primer* Bertolt Brecht, 2017-05-02 In this singular book written during World War Two Bertolt Brecht presents a devastating visual and lyrical attack on war under modern capitalism He takes photographs from newspapers and popular magazines and adds short lapidary verses to each in a unique attempt to understand the truth of war using mass media Pictures of catastrophic bombings propaganda portraits of leading Nazis scenes of unbearable tragedy on the battlefield all these images contribute to an anthology of horror from which Brecht's perceptions are distilled in poems that are razor sharp angry and direct The result is an outstanding literary memorial to World War Two and one of the most spontaneous revealing and moving of Brecht's works

Wer war Brecht Werner Mittenzwei, 1977 Chiefly articles from *Sinn und Form* originally published 1949-74

*Wer war Brecht?* Friedrich Dieckmann, 2003

**Brecht Unbound** James K. Lyon, Hans-Peter Breuer, 1995 Except for the annual Brecht Yearbook *Brecht Unbound* represents the first broad critical study of Brecht's works to appear in the United States since before the fall of the Berlin Wall Intended to move beyond the ideological considerations that have informed so much secondary literature about Brecht the book is a cross disciplinary reassessment of important aspects of his work Included are essays on his poetry drama theoretical writings Brecht's influence on American film techniques and music his relationship to and borrowings from Japanese No theater and a comparison between aesthetic techniques in his writings and Stravinsky's *The Little Soldier* BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

**Bertolt Brecht's Adaptations and Anti-capitalist Aesthetics Today** Anthony Squiers, 2025-02-13 This book examines Brecht's theory and method of adaptation It first reconstructs it into a single framework using four key Brechtian concepts Fabel gestus estrangement effects and historicizing It then uses that framework to analyse four Brechtian adaptations *The Tutor* *Don Juan* *Socrates Wounded* and *Kriegsfibel* It argues that adaptation occupies a previously unrealised central place in Brecht's thought demonstrating that he provides us with a unique way to think about adaptation as material transformation It concludes by describing how Brecht is useful for anti capitalist aesthetics today because through him one can foster a new consciousness which enables better social conditions to be created This book is practical for both theatre practitioners and artists as well as theorists

Mother Courage and Her Children Bertolt Brecht, 1991 Widely considered one of the great dramatic creations of the modern stage *Mother Courage and Her Children* is Bertolt Brecht's most passionate and profound statement against war Set in the seventeenth century the play follows Anna Fierling Mother Courage an itinerant trader as she pulls her wagon of wares and her children through the blood and carnage of Europe's religious wars Battered by hardships brutality and the degradation and death of her children she ultimately finds herself alone with the one thing in which she truly believes her ramshackle wagon with its tattered flag and freight of boots and brandy Fitting herself in its harness the old woman manages with the last of her strength to drag it onward to the next battle In the enduring figure of Mother Courage Bertolt Brecht has created one of the most extraordinary

characters in literature      Bertolt Brecht's Dramatic Theory John J. White, 2004 In concert with his work as a politically charged playwright and dramaturge Bertolt Brecht concerned himself extensively with the theory of drama He was convinced that the Aristotelian ideal of audience catharsis through identification with a hero and the resultant experience of terror and pity worked against his goal of bettering society He did not want his audiences to feel but to think and his main theoretical thrusts *Verfremdungseffekte* de familiarization effects and epic theater among others were conceived in pursuit of this goal This is the first detailed study in English of Brecht's writings on the theater to take account of works first made available in the recent German edition of his collected works It offers in depth analyses of Brecht's canonical essays on the theater from 1930 to the late 1940s and early GDR years Close readings of the individual essays are supplemented by surveys of the changing connotations within Brecht's dramaturgical oeuvre of key theoretical terms including epic and anti Aristotelian theater de familiarization historicization and dialectical theater Brecht's distinct contribution to the theorizing of acting and audience response is examined in detail and each theoretical essay and concept is placed in the context of the aesthetic debates of the time subjected to a critical assessment and considered in light of subsequent scholarly thinking In many cases the playwright's theoretical discourse is shown to employ methods of epic presentation and techniques of de familiarization that are corollaries of the dramatic techniques for which his plays are justly famous John J White is Professor of German and Comparative Literature at King's College London      **Brecht's America** Patty Lee Parmalee, 1981      **The Culture of the Case** Frederic J. Schwartz, 2023-06-13 How artists in twentieth century Germany adapted the idea of the medical or legal case as an artistic strategy to push to the fore sexualities scandals and crimes that were otherwise concealed In early twentieth century Germany the artistic avant garde borrowed procedures from the medical and juridical realms to expose and debate matters that society preferred remain hidden and unspoken Frederic J Schwartz explores how the evocation or creation of a case provided artists with a means to engage themes that ranged from blasphemy to Lustmord or sexual murder Shedding light on the case as a cultural form Schwartz shows its profound effect on artists and the ways it dovetailed with methods used by these figures to exploit fundamental changes taking place across the mass media of their time As Schwartz shows the case was a common denominator that connected seemingly disparate works George Grosz and Rudolf Schlichter drew on it for their violent visual art as did architect Adolf Loos when he equated ornament with crime Expressionists meanwhile approached the question of whether the so called mad shared a right of public expression with those deemed sane and examined medical and legal approaches to what society labeled as insanity The case also took on a personal dimension when artists found themselves confronted with or chose to engage with the legal system German courts prosecuted John Heartfield and others for their provocative works while Bertolt Brecht created publicity for himself by suing the firm to whom he sold the film rights to *The Threepenny Opera* Provocative and insightful *The Culture of the Case* offers a privileged view of the spaces of representation in which images in some instances as cases functioned at a key moment of modernity

**Brecht Damals und Heute** John Willett, 1995 This 20th jubilee volume of the Brecht Yearbook also celebrates 25 years of the International Brecht Society John Willett has assembled material from the international symposium he convened in Bourges in 1992 along with statements and articles from those who feel an affinity with Brecht **Bertolt Brecht's Furcht Und Elend Des Dritten Reiches: A German Exile Drama in the Struggle Against Fascism (Studies in German Literature, Linguistics, and Culture)** John J. White, Ann White, 2010 First thorough treatment in English of one of Brecht's most important antifascist works Brecht's *Furcht und Elend des Dritten Reiches* Fear and Misery of the Third Reich gives a compelling documentary picture of life in Nazi Germany Close readings of individual scenes are accompanied by a detailed analysis of their role within the play's overall structure Contrary to the assumption that it is a work of Aristotelian realism Brecht is shown to employ covert alienation devices that are an integral part of his literary campaign against Third Reich Germany This first study in English on the subject of Brecht and fascism offers a corrective to the overconcentration on the play's artistic aspects It considers Brecht's relationship to the Popular Front's campaign against the National Socialist regime Attention is paid to the play's genesis and in the case of *The Private Life of the Master Race* to the partial shift from the Third Reich of 1933-38 to the war period predicted in the original *Furcht und Elend* cycle The play's central theme of resistance its propaganda value and its political and artistic reception are addressed within their historical and ideological framework The result is a challenging assessment of the play's strengths and limitations as a response to German totalitarianism John J White is Emeritus Professor of German and Comparative Literature at King's College London and Ann White is Senior Lecturer in German at Royal Holloway University of London ***Art and Human Rights*** Fiana Gantheret, Nolwenn Guibert, Sofia Stolk, 2023-05-09 This timely book builds bridges between the notions of art and aesthetics human rights universality and dignity It explores a world in which art and justice enter a discussion to answer questions such as can art translate the human experience How does humanity link individuality and community building How do human beings define and look for their identity The fields of human rights and art are brought together in order to open the discussion and contribute to the promotion and protection of human rights ***Bertolt Brecht's Interpretational Model and Its Influence on West German Theater Directing*** John Samuel Rouse, 1984 ***Brecht Jahrbuch***, 1995 ***Sinn und Form*** Stephen R. Parker, Matthew Philpotts, 2009 The series publishes monographs and edited volumes that showcase significant scholarly work at the various intersections that currently motivate interdisciplinary inquiry in German cultural studies Topics span all periods of German and German speaking lands and cultures from the local to the global with a special focus on demonstrating how various disciplines history musicology art history anthropology religious studies media studies political theory literary and cultural studies among others and new theoretical and methodological paradigms work across disciplinary boundaries to create knowledge and add to critical understanding in German studies broadly All works are in English Three to four new titles will be published annually ***Brecht in Asia and Africa*** John Fuegi, 1989 ***Wer war***
