Soviet Athlete:

Secrets of Soviet Sports Fitness and Training Michael Yessis, Richard Trubo, 1988 **USSR**, 1991 *The Moscow Playbook* Bruce Berglund, 2026-02-13 An eye opening account of how Russia's leaders have used sports as a political tool to solidify their global power. Victories in sport do more to cement the nation than a hundred political slogans. This was the pep talk Russian athletes heard in 2000 from their new president Vladimir Putin. And so for more than two decades Putin has used sports like his Soviet predecessors to stoke nationalism at home, boost prestige abroad, and cement his position as leader. *The Moscow Playbook: How Russia Used, Abused, and Transformed Sports in the Hunt for Gold* is the first book to fully examine the intersection of Russian sports and geopolitical power from the dominant Soviet teams of past Olympics to recent doping scandals and international sanctions. With new research from Olympic archives, records of the Soviet bloc, and current Russian media, historian Bruce Berglund shows how Moscow's leaders have defied the rules of the game for decades as the world's governing bodies turned a blind eye. Featuring oligarchs, sportocrats, and famous athletes from Olga Korbut to Alex Ovechkin, this is a timely investigation into the gears of power, nationalism, and money that drive the Russian sports machine.

Identity and Myth in Sports Documentaries Zachary Ingle, David M. Sutera, 2012-12-27 Nonfiction films about sports have been around for decades, yet few scholarly articles have been published on these works. In *Identity and Myth in Sports Documentaries*, editors Zachary Ingle and David M. Sutera have assembled a collection of essays that show how myth and identity—national, religious, ethnic, and racial—are constructed, perpetuated, or questioned in documentaries produced in the United States, France, Australia, Germany, and Japan. This collection is divided into three sections: American Identity and Myth, which contains essays on consumerism, religion in sports, and post-9/11 America; Race and Ethnicity, which examines the ways in which African American, Mexican American, and Jewish identity are portrayed in the documentaries under discussion; and Global Perspectives, which features films and TV series produced outside of the United States or those that provide perspectives on the international sport scene. Spanning several decades, the landmark documentaries discussed in this volume include *Hoop Dreams*, *The Endless Summer*, *The Life and Times of Hank Greenberg*, *Olympia*, and *Tokyo Olympiad*, and address such subjects as baseball, football, basketball, boxing, soccer, surfing, and the Olympics. The essays pose such questions as: How are notions of the American dream involved in athletes' aspirations? How do media texts from Australia or France construct Australian and French identity, respectively? How did filmmakers such as Leni Riefenstahl, Kon Ichikawa, and Bud Greenspan infuse their Olympic documentaries with national ideology despite being intended for an international audience? By tackling these subjects, *Identity and Myth in Sports Documentaries* is an intriguing read for scholars, students, and the general public alike.
