Ardennes-1944: An Analysis Of The Operational Defense Major Francis M. Cain III,2014-08-15 This study examines the nature of the defense at the operational level of war by analyzing the Battle of the Bulge in Dec 1944 using the concepts of blitzkrieg and web defense The monograph begins by discussing the influence of defensive theory on the operational concepts of blitzkrieg and web defense The German concept of blitzkrieg incorporates Clausewitz s theory of the offense by emphasizing surprise speed and concentration at the decisive point The counter to the blitzkrieg offense is found in COL F O Miksche s concept of web defense The Battle of the Bulge provides an excellent example of a web defense pitted against a blitzkrieg offense The German blitzkrieg in the Ardennes in 1944 failed for many reasons 1 Army Group B did not concentrate its strength against the most vulnerable section of the Allied line 2 The rugged Ardennes terrain could be easily defended against attacks by mechanized forces 3 Key American commanders Eisenhower Gerow and Middleton quickly recognized the value of holding several key road junctions St Vith Malmedy Bastogne Marche and Rochefort which dominated movement through the Ardennes 4 The Allies held the shoulders of the German penetration 5 The Allies quickly concentrated armored and motorized units to blunt the German penetration and 6 Army Group B lacked operational reserves and adequate logistic support The analysis of the Ardennes shows that the defense is indeed the stronger form of war and that a web defense can be employed effectively against a blitzkrieg offense The Allies effectively used a web defense to counter these threats If NATO is to defeat a Soviet attack without resorting to the use of nuclear weapons it must adopt a viable operational defensive concept Web defense is such a concept Parameters ,1982 **Armor** ,1986 **Military**

The Soviet War in Afghanistan Milan Hauner,1991-08-05 In this volume historian Milan Hauner brilliantly links the lessons of the Soviet invasion of Afghanistan with the East West political struggles of today Masterfully he demonstrates the geographical and historical predicates of Russian imperialism in Asia His analysis focuses on the failed military campaign in Afghanistan and Soviet diplomacy in Southwest Asia as a whole The results are impressive The reader is given the advantage of a fuller historical spectrum and can better grasp the true shape of the present More importantly the reader can look into the future From this vantage point the constraints possibilities and obligations of U S diplomacy become more clear Co published with the Foreign Policy Research Institute *Yearbook on International Communist Affairs* ,1984

Military Persuasion Stephen J. Cimbala,1994 In *Military Persuasion* Stephen J Cimbala reconciles two central approaches to war and peace studies In the study of crisis management and war termination the security literature overwhelmingly emphasizes the making of credible deterrent threats and coercive bargaining while peace studies and conflict resolution literature focuses on conciliation and the offering of acceptable terms prior to or during a conflict Cimbala contends that both threats and accommodation have their place in successfully preventing and ending conflicts *Military Persuasion* is particularly welcome in the 1990s as policy makers and scholars debate whether nuclear deterrence deserves credit as a positive factor in the avoidance of military confrontation between the superpowers during the Cold War years Cimbala examines several cases of great power decision making before during and after the Cold War to demonstrate that deterrent threats alone have not successfully avoided war during this century In some important instances such as the months leading up to World War I threats have actually fed into a chain of miscalculation that ultimately led to war Cimbala also considers the Berlin crisis of 1948 the Cuban Missile Crisis of 1962 and the Gulf War of 1991 the first major post Cold War conflict *Military Persuasion* makes a significant contribution to war and peace studies firmly grounded in a realistic appraisal of the human dimension to crisis management Pakistan Army Journal ,1986

Strategy After Deterrence Stephen J. Cimbala,1991-01-30 The profound political changes in the USSR and Eastern Europe during 1989 have forced the United States and its Western European allies to reevaluate both their long held military strategy of nuclear deterrence and the traditional role of NATO in European affairs In this volume Stephen Cimbala considers the ways in which American military priorities will have to change now that the tangible threat to Europe has been removed exploring the options available to America and NATO given the new political and economic realities in Europe and the Soviet Union Drawing upon a rich literature of Soviet and American defense strategy Cimbala examines the structure and

effectiveness of deterrence as a military strategy the relationship between conventional and nuclear weapons the likely course of future conflicts and alternative military strategies Following an introductory chapter which defines the concepts of deterrence and dissuasion and offers an overview of the changing character of European politics Cimbala reviews the political context for the development of military strategy in Europe Subsequent chapters consider the relationship between military stability and the likelihood of winning wars in their initial stages analyze the issue of deterrence during war discuss the potential for atypical wars in the future and investigate the linkages between deception and deterrence A separate chapter addresses the attempt to substitute non nuclear dissuasion for nuclear deterrence in the form of anti nuclear strategic defenses which could defeat nuclear offenses In the final chapter Cimbala summarizes his conclusions and makes some additional observations about the implications of our new view of NATO and deterrence Students of international relations foreign policy and military studies will find Cimbala s work enlightening and provocative reading **Win, Lose Or**
