Guillermaz,1976 **The Politics of Chinese Communism** Ilpyong J. Kim,2021-01-08 The political system established by the Chinese Communist Party in 1949 had its origins in many respects in the Chinese Soviet Republic of 1931 1934 based in southern Kiangsi province about 400 miles southwest of Shanghai The Kiangsi period was important because it gave the Chinese Communists their first opportunity to govern an extensive area and a large population and in so doing to develop methods of mass mobilization as well as new techniques for conducting party and government affairs Kim explores the evolution of the Chinese Communist movement during the Kiangsi soviet period especially its organizational concepts behavioral patterns and development techniques of mass line politics He seeks answers to several questions What notions of organization shaped the Kiangsi political system Who formulated the policies How were they implemented at the rice roots level of government By analyzing Mao Tse tung s writings on organization and comparing them with those of other Chinese Communist theoreticians he achieves fresh insights into Mao s approach to administration and bureaucratic organization The distinct contribution of this book lies in its focus on such issues as how the Chinese Communist leaders viewed organizational problems within their movement especially following the failure of the 1947 revolution how they responded to these problems and how they maintained a balance of power among the party the government and the Red Army while administering the expanding territorial base and managing complex organizations This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 **Peasant**

Elleman,2009 This book examines the emergence of Communist power in China during the interwar period focusing especially on the role of the Soviet Union and the 1927 Nanchang Uprising It describes the history

behind the alliance between the Chinese Communists and Nationalists the impact of the USSR's military and political advisers and the success of the Northern Expedition that resulted in the April 1927 purge of the Communists from the Nationalist Party It explores the debates between leading communists in Moscow notably Stalin who thought that China was ready in 1927 for an urban based Communist revolution similar to what had happened in Russia ten years before and Trotsky who opposed it It goes on to examine the seizure of power in Nanchang by the Communists the establishment of China's first short lived soviet republic and the reasons why the soviet soon collapsed It explains the consequences of the rising including the adoption by the Communists of guerilla warfare the foundation of China's second soviet and after moving to northwest China during the 1930s the rise of Communist power throughout all of mainland China which culminated in the establishment of the People's Republic of China in 1949 The book stresses the importance of the mythology that evolved around the Nanchang Uprising since criticism of the Nanchang Uprising would open themselves up to accusations that they were Trotskyites the Chinese Communists created the myth that the Nanchang Uprising was a success and later dated the origins of the People's Liberation Army to this event
