Sutton, 1985 **Western Technology and Soviet Economic Development** Antony C. Sutton, 1971 *The Economic Development of the USSR* Roger Munting, 2023-06-14 The Economic Development of the USSR 1982 examines the economic advances the Soviet Union made as the first major economy to adopt full scale socialist planning It argues that the Soviet experience demonstrates that remarkable quantitative economic progress can be achieved but at a price which Western democracies would not tolerate Moreover while the planning and control mechanism of the USSR produced striking results in the case of agriculture it often failed to produce satisfactory results The book provides an impartial assessment of the merits and defects of the Soviet planning system which also served as a model for many other Communist countries **Western Technology and Soviet Economic Development 1930 to 1945** Antony C Sutton, 1973-10 THIS is the second volume of an empirical study of the relationship between Western technology and entrepreneurship and the economic growth of the Soviet Union The continuing transfer of skills and technology to the Soviet Union through the medium of foreign firms and engineers in the period 1930 to 1945 can only be characterized as extraordinary A thorough and systematic search unearthed only two major items SK B synthetic rubber and the Ramzin once through boiler and little more than a handful of lesser designs several aircraft a machine gun and a motorless combine which could accurately be called the result of Soviet technology the balance was transferred from the West **Western**

Sutton, 1968 THIS is the first volume time period 1917 1930 of an empirical study of the relationship between Western technology entrepreneurship and the economic growth of the Soviet Union By far the most significant factor in the development of the Soviet economy has been its absorption of Western technology and skills The continuing transfer of skills and technology to the Soviet Union through the medium of foreign firms and engineers in the period 1917 to 1930 can only be characterized as extraordinary *Western Technology and Soviet Economic Development 1945-1968* Antony C.
