Congress. House. Committee on Appropriations. Subcommittee on Agriculture, Rural Development, and Related Agencies, 1978 *America's Space Sentinels* Jeffrey Richelson, 1999 During much of the Cold War America s first line of defense was in outer space a network of secret satellites that could provide instant warning of an enemy missile launch The presence of these infrared sensors orbiting 22 000 miles above the earth discouraged a Soviet first strike and stabilized international relations between the superpowers and they now play a crucial role in monitoring the missile programs of China India and other emerging nuclear powers Jeffrey Richelson has written the first comprehensive history of this vital program tracing its evolution from the late 1950s to the present He puts Defense Support Program operations in the context of world events from Russian missile programs to the Gulf War and explains how DSP s infrared sensors are used to detect meteorites monitor forest fires and even gather industrial intelligence by seeing the lights of steel mills *The Soviet Estimate* , 2003 This collection contains more than 600 intelligence estimates and reports representing nearly 14 000 pages of documentation from the office of the Director of Central Intelligence the National Intelligence Council the Central Intelligence Agency the Defense Intelligence Agency and other organizations The set includes several hundred pages of debriefing transcripts and other documentation related to Colonel Oleg Penkovskii the most important human source operated by the CIA during the Cold War who later was charged with treason and executed by the Soviet Union Also published here for the first time is the Pentagon s Top Secret 1 000 page internal history of the United States Soviet Union arms race DNSA collections page **Soviet Gross National Product in Current Prices, 1960-80** United States. War and challenges the role that American security policy has played in the process of constructing a transatlantic security community **Sharing Secrets with Stalin** Bradley F. Smith, 1996 As engaging as it is astonishing this book provides extremely important revelations and striking pen portraits etched in acid of the main actors Certainly the sources are fabulous John Erickson author of *The Road to Stalingrad* A well written account filled with original material and documentation Good reading for anyone interested in the history of WWII intelligence Publishers Weekly starred review

FDR and the Soviet Union Mary E. Glantz, 2005 Throughout his presidency Franklin Roosevelt was determined to pursue a peaceful accommodation with an increasingly powerful Soviet Union an inclination reinforced by the onset of world war Roosevelt knew that defeating the Axis powers would require major contributions by the Soviets and their Red Army and so despite his misgivings about Stalin's expansionist motives he pushed for friendlier relations Yet almost from the moment he was inaugurated lower level officials challenged FDR's ability to carry out this policy Mary Glantz analyzes tensions shaping the policy stance of the United States toward the Soviet Union before during and immediately after World War II Focusing on the conflicts between a president who sought close relations between the two nations and the diplomatic and military officers who opposed them she shows how these career officers were able to resist and shape presidential policy and how their critical views helped shape the parameters of the subsequent Cold War Venturing into the largely uncharted waters of bureaucratic politics Glantz examines overlooked aspects of wartime relations between Washington and Moscow to highlight the roles played by U S personnel in the U S S R in formulating and implementing policies governing the American Soviet relationship She takes readers into the American embassy in Moscow to show how individuals like Ambassadors Joseph Davies Lawrence Steinhardt and Averell Harriman and U S military attaches like Joseph Michela influenced policy and reveals how private resistance sometimes turned into public dispute She also presents new material on the controversial military attach lend lease director Phillip Faymonville a largely neglected officer who understood the Soviet system and supported Roosevelt's policy Deftly combining military with diplomatic history Glantz traces these philosophical and policy battles to show how difficult it was for even a highly popular president like Roosevelt to overcome such entrenched and determined opposition Although he reorganized federal offices and appointed ambassadors who shared his views in the end he was unable to outlast his bureaucratic opponents or change their minds With his death anti Soviet factions rushed into the policymaking vacuum to become the primary architects of Truman's Cold War containment policy A case study in foreign relations high level policymaking and civil military relations **FDR and the Soviet Union** enlarges our understanding of the ideologies and events that set the stage for the Cold War It adds a new dimension to our understanding of Soviet American relations as it sheds new light on the surprising power of those in low places **Brassey's Naval Annual** Earl Thomas Allnutt Brassey, 1951 **The Cold War U.S. Army** Ingo Trauschweizer, 2008 Focuses on the Seventh Army in West Germany the largest and best prepared field army ever deployed by the U S in peacetime to show how the U S army

redefined its identity structure and mission in order to avoid obsolescence during the Cold War era of nuclear weapons and air power *Soviet Rule in Russia* Walter Russell Batsell, Bureau of International Research of Harvard University and Radcliffe College, 1929 **The Soviet Estimate**, 2003* This collection contains more than 600 intelligence estimates and reports representing nearly 14 000 pages of documentation from the office of the Director of Central Intelligence the National Intelligence Council the Central Intelligence Agency the Defense Intelligence Agency and other organizations The set includes several hundred pages of debriefing transcripts and other documentation related to Colonel Oleg Penkovskii the most important human source operated by the CIA during the Cold War who later was charged with treason and executed by the Soviet Union Also published here for the first time is the Pentagon's Top Secret 1 000 page internal history of the United States Soviet Union arms race DNSA collections page Estimates Submitted by the Secretary of the Navy United States.
