## INTERNATIONAL INVESTMENT AGREEMENTS

## THE INTERNATIONAL INVESTMENT TREATY REGIME AND CLIMATE ACTION

### H I G H L I G H T S

- The international investment agreements (IIA) regime comprises about 3,300 treaties. Old-generation IIAs from the 1980s until the early 2010s were often concluded with little or no attention to host States' regulatory flexibility for environmental protection and climate action. New-generation IIAs signed since 2010 fare relatively better in safeguarding the States' right to regulate and in incorporating specific provisions on the protection of the environment, climate action and sustainable development. However, both old and recent IIAs lack proactive provisions aimed at effectively supporting climate action.
- IIAs do not distinguish between low-carbon and high-carbon investments. IIAs generally cover investments across all sectors and typically offer high levels of protection.
- As old-generation IIAs significantly outnumber new-generation ones, it is critical to address the problems and risks posed by old-generation IIAs.
- States have options and tools at their disposal to reform their existing IIAs, including based on UNCTAD's IIA Reform Accelerator (2020), the IIA Reform Package (2018) and the Investment Policy Framework for Sustainable Development (2015).
- The current IIA regime can constrain States when implementing measures to combat climate change. States may need to fast-track IIA reform to make it more aligned with climate action as well as other public policy imperatives. Two broad approaches can be considered:
  - Making individual IIAs climate-responsive by ensuring that only low-carbon and sustainable investments are covered and by safeguarding the right and duty of States to regulate in the public interest. This can be coupled with provisions aimed at promoting and facilitating sustainable investment.
  - Exploring the possibilities to reconceptualize the scope, purpose and design of the IIA regime through engagement in holistic IIA reform actions at the multilateral, regional, bilateral and national levels.
- Many past investor-State dispute settlement (ISDS) cases were related to measures or sectors of direct relevance to climate action. A complementary publication looks at such ISDS cases (IIA Issues Note, No. 4, September 2022).
