Understanding Development John Rapley, 2013-02-01 First published in 1997 An introduction to the theory and practices of development in the third world tracing the evolution of development theory over 40 years and examining why so many of the benefits of development are still not shared by millions [Studies in Third World Development](#) M. Francis Abraham, Ramayyar Subramanian, 1992 Contributed articles

International Development Studies Andrew Sumner, Michael A Tribe, 2008-04-11 A sure footed and self confident book ambitious in scope authoritative in execution and practical in its implications Simon Maxwell Director Overseas Development Institute London At last a development studies text that encourages self reflection from within the discipline Highly recommended Professor Ray Kiely Chair in International Politics Queen Mary University of London This is the book that academics development researchers and practitioners have been seeking for a long time It addresses the most important issues which development researchers and practitioners cope with each and every day Dr Tran Tuan Director Research and Training Centre for Community Development Hanoi Vietnam An insightful book for both development practitioners and researchers alike Professor K N Nair Director Centre for Development Studies Kerala India This book is about working professionally in Development Studies as a student researcher or practitioner It introduces and addresses the fundamental questions that everyone engaged with development must ask What is development and why do we wish to study it How do the many theoretical methodological and epistemological approaches relate to research and practical studies in development How are development research and practice linked Accessibly written with extensive use of case study material this book is an essential primer for students of development studies who require a concise penetrating overview of its foundations It is also core reading for students and practitioners concerned with the design of studies in the course of policy analysis sector reviews or project formulation management and evaluation

Encountering Development Arturo Escobar, 2011-10-10 How did the industrialized nations of North America and Europe come to be seen as the appropriate models for post World War II societies in Asia Africa and Latin America How did the postwar discourse on development actually create the so called Third World And what will happen when development ideology collapses To answer these questions Arturo Escobar shows how development policies became mechanisms of control that were just as pervasive and effective as their colonial counterparts The development apparatus generated categories powerful enough to shape the thinking even of its occasional critics while poverty and hunger became widespread Development was not even partially deconstructed until the 1980s when new tools for analyzing the representation of social reality were applied to specific Third World cases Here Escobar deploys these new techniques in a provocative analysis of development discourse and practice in general concluding with a discussion of alternative visions for a postdevelopment era Escobar emphasizes the role of economists in development discourse his case study of Colombia demonstrates that the economization of food resulted in ambitious plans and more hunger To depict the production of knowledge and power in

other development fields the author shows how peasants women and nature became objects of knowledge and targets of power under the gaze of experts In a substantial new introduction Escobar reviews debates on globalization and postdevelopment since the book s original publication in 1995 and argues that the concept of postdevelopment needs to be redefined to meet today s significantly new conditions He then calls for the development of a field of pluriversal studies which he illustrates with examples from recent Latin American movements
