

Studying Nature

Raffaela Di Napoli

Studying Nature:

Loving and Studying Nature Malcolm Skilbeck, 2022-01-05 This volume investigates crucial ways in which nature has been apprehended understood and valued in different cultures and over time It is grounded in current global concerns about growing threats to the natural environment Through a critical appraisal of specific examples it ranges widely over historical and contemporary attitudes and behaviours It presents a wide ranging analysis of selected ideas and attitudes in the evolution mainly of western civilisation from the time of the cave artists to the present day It argues for preservation and conservation of the natural resources and beauty of the earth in the face of religious supernatural arguments and the rise of consumer capitalism and consumerism
