literature is weak the agency of organised religion in the outcomes described as secularisation rather than explanations based on external challenges such as the modernisation of society and thought increased affluence and more leisure choices a focus on urban areas transformed by twentieth century industrialisation and suburbanisation and an extended time period to the end of the third quarter of the twentieth century allowing proper consideration of long term trends alongside short term upheavals such as the World Wars the Great Depression and the social changes of the 1960s Further the book employs a distinctly different highly data driven approach considers all religious movements and sets its conclusions within the wider social and cultural context of a representative community

Christianity in Britain Since 1914 David Goodhew,Mark Smith,2024-11-18 This book charts the profound changes in British Christianity over the last century It does so through the medium of diverse local case studies based on high quality new research The ethnic diversification of British churches in the last fifty years is a key theme of the volume Overall the chapters show how secularization has had different trajectories in different parts of the country Alongside this the book charts the surprising desecularisation of parts of Britain in recent decades

Town & Country Studies Institute of Social and Religious Research,1922 *Beyond the Academy* David Thang Moe,2024-10-11 The term public theology was introduced by Martin E Marty in a 1974 article Since then scholarly discussions on public theology have become more popular in academic circles This book however is about the invitation for moving beyond the academy It provides two reasons for doing so First an overtly academic public theology is in crisis today Although public theology may be flourishing in the academy its relevance for real life is limited Second there is the ecclesial flourishing among grassroots Christian communities across Asia who witness to their lived faith in public and hidden life Their voices are largely unheard due to the gaps between the academy and the church This volume argues that we should consider their voices as key sources for developing a relevant lived Asian public theology The author makes the case for

reimagining the paradigm shifts in lived Asian public theology of religions and for bridging the unhappy gaps between the academic and grassroots voices Mobilizing Local Churches for International Student Ministry S. Beau Miller, 2018
