Welborn, 2023-12-28 A complete geographical and thematic overview of the village in antiquity and its role in the rise of Christianity The volume begins with a state of question introduction by Thomas Robinson assessing the interrelation of the village and city with the rise of early Christianity Alan Cadwallader then articulates a methodology for future New Testament studies on this topic employing a series of case studies to illustrate the methodological issues raised From there contributors explore three areas of village life in different geographical areas by means of a series of studies written by experts in each discipline They discuss the ancient near east Egypt and Israel mainland and Isthmian Greece Asia Minor and the Italian Peninsula This geographic focus sheds light upon the villages associated with the biblical cities Israel Corinth Galatia Ephesus Philippi Thessalonica Rome including potential insights into the rural nature of the churches located there A final section of thematic studies explores central issues of local village life indigenous and imperial cults funerary culture and agricultural and economic life

The Funeral Kit Jill L Baker, 2016-06-03 Studies of mortuary archaeology tend to focus on difference how the researcher can identify age gender status and ethnicity from the contents of a burial Jill L Baker s innovative approach begins from the opposite point how can you recognize the commonalities of a culture from the funeral kit that occurs in all burials irrespective of status differences And what do those commonalities have to say about the world view and religious beliefs of that culture Baker begins with the Middle and Late Bronze Age tombs in the southern Levant then expands her scope in ever widening circles to create a general model of the funeral kit of use to archaeologists in a wide variety of cultures and settings The volume will be of equal value to specialists in Near Eastern archaeology and those who study mortuary remains in ancient cultures worldwide
