The European Executive:

The European Executive David Granick, 2013-10 This is a new release of the original 1962 edition *Towards A New Executive Order In Europe?* Deirdre Curtin, Morten Egeberg, 2013-09-13 The executive branch of government in Europe is being gradually transformed in several significant respects First executive power has been continuously strengthened at the EU level in the form of the European Commission EU level agencies and diplomatic and military staff in the Union Council secretariat Second EU executive bodies relate directly to regulatory authorities at the national level in charge of applying and partly preparing EU laws and programmes partly circumventing ministerial departments Thus parts of national administrations become parts of an integrated and multi level Union administration as well as parts of national executives Such a system with multiple political masters raises delicate questions about political steering and accountability This book focuses on this fascinating development both from a political science and a legal perspective encompassing the consolidation of the supranational executive as well as its relationships with its partners at the national level This book was published as a special issue of *West European Politics* **An Emergent European Executive Order** Jarle Trondal, 2010-02-25 This book poses two pertinent questions First if a European executive order is emerging how can we empirically see it Second if a European executive order is emerging how can we explain everyday decision making processes within it The goal of this book is two fold First it identifies key institutional components of an emergent European executive order The nucleus of this order is the European Commission The Commission however is increasingly supplemented by a mushrooming parallel administration of EU level agencies and EU committees This book provides fresh empirical survey and interview data on the everyday decision making behaviour role perceptions and identities among European civil servants who participate within these institutions Secondly this book claims and empirically substantiates that an emergent European executive order is a compound executive order balancing a limited set of key decision making dynamics One message of this book is that an emergent European executive order consists of a compound set of supranational departmental epistemic and intergovernmental decision making dynamics Arguably a compound European executive order transforms the inherent Westphalian order to the extent that intergovernmentalism is transcended and supplemented by a multidimensional mix of supranational departmental and or epistemic dynamics This book also theoretically explores conditions under which these decision making dynamics gain prevalence It is argued that the decision making dynamics emerging within an emergent European executive order are conditioned by the formal organisation of its composite parts and by the patterns of social interaction that emerge among its civil servants Political processes and political systems can neither be adequately understood nor explained without including the organisational dimension of executive orders *Controlling the EU Executive?* Gijs Jan Brandsma, Jens Blom-Hansen, 2017-09-01 Every year the EU Commission issues thousands of rules based on powers delegated by the Council of Ministers, and the European Parliament But delegation is carefully controlled

Traditionally control has been exerted through a system of committees of member state representatives comitology However this system was contested by the European Parliament which was left without any influence The Lisbon Treaty introduced a new control regime for delegated powers the so called delegated acts system which was meant to supplement the existing system The new system involves direct control by the Council of Ministers and the European Parliament and thus for the first time gave the European Parliament real influence over delegated powers However the choice over which delegation regime to use in practice has turned into one of the most vehement institutional conflicts in the EU political system This book represents the first comprehensive investigation of this conflict It does so by a combination of methods and data including process tracing of the introduction of the new system in the Lisbon Treaty case studies of selected post Lisbon delegation situations and statistical analysis of datasets comprising hundreds of post Lisbon legislative files *An Emergent European Executive Order* Jarle Trondal,2010-02-25 The book examines how the European Union profoundly penetrates the domestic branch of executive government The author explores the accumulated organisational capacities and the every day decision making dynamics inside three key institutions the European Commission EU level agencies and EU committees The European Commission Morten Egeberg,Advanced Research on the Europeanisation of the Nation-state (ARENA),2002

Annual Report Carnegie Endowment for International Peace,1926 American Foreign Policy United States. Department of State,United States. Department of State. Historical Office,1957 **Year Book for ...** Carnegie Endowment for International Peace,1915 *Year Book* Carnegie Endowment for International Peace,1914 Executive Power in the European Union Deirdre Curtin,2009 The picture of Brussels based bureaucrats exercising arbitrary executive powers is one of the favourite images conjured by Eurosceptics across the political spectrum This book offers a richer understanding of the nature of the EU s powers how they relate to national governments and how they are controlled The European Executive David Granick,2009-07 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work *Yearbook - Carnegie Endowment for International Peace* Carnegie Endowment for International Peace,1915 Report Carnegie Endowment for International Peace,1925

Yearbook Carnegie Endowment for International Peace,1919 **The Administrative Law of the European Union** ,2004 **The European Commission and Europe's Democratic Process** Stuart A. Brown,2016-06-17 This book examines the multitude of challenges which the European Commission faces once the centre of political gravity in Europe s integration process the growth of Euroscepticism and the emergence of new institutional rivals threaten to undermine its status as an institution Tracing the roots of the Commission s decline from the early 1990s through to the Eurozone and refugee crises Stuart A Brown draws on new evidence to illustrate why the EU s executive now faces a battle for its future

and asks whether in the reforms of Jean Claude Juncker the Commission may be facing its last chance This study will appeal to students and scholars in EU institutions politics and public policy *Controlling the EU Executive?* Gijs Jan Brandsma, Jens Blom-Hansen, 2017-09-07 Every year the EU Commission issues thousands of rules based on powers delegated by the Council of Ministers and the European Parliament But delegation is carefully controlled Traditionally control has been exerted through a system of committees of member state representatives comitology However this system was contested by the European Parliament which was left without any influence The Lisbon Treaty introduced a new control regime for delegated powers the so called delegated acts system which was meant to supplement the existing system The new system involves direct control by the Council of Ministers and the European Parliament and thus for the first time gave the European Parliament real influence over delegated powers However the choice over which delegation regime to use in practice has turned into one of the most vehement institutional conflicts in the EU political system This book represents the first comprehensive investigation of this conflict It does so by a combination of methods and data including process tracing of the introduction of the new system in the Lisbon Treaty case studies of selected post Lisbon delegation situations and statistical analysis of datasets comprising hundreds of post Lisbon legislative files *International Stereotypes' and Electrotypes' Union Journal* ,1927 *The New York Times Current History of the European War* ,1915
