## **The Entry:**

The Practice of the Customs in the Entry, Examination, and Delivery of Goods and Merchandise, Usually Imported from Foreign Parts, Showing the Tares and Allowances on Each Article, and Describing the Peculiar Character and Properties Thereof James Smyth, 1812      **The Entry Level Occupational Therapy Doctoral Capstone** Elizabeth D. DeJuliis, Julie A. Bednarski, 2025-10-24

The second edition of *The Entry Level Occupational Therapy Doctoral Capstone* is an essential resource to guide both students and educators through every phase of the doctoral capstone from development to dissemination. Fully revised to align with the latest ACOTE accreditation standards and terminology, each chapter of the book is divided into two sections: one for students and one for educators. This updated edition includes new chapters on mentorship and how to build collaborative skills, conducting a literature review, and performing a needs assessment and program evaluation. Student learning activities are redesigned around design thinking principles such as empathy and identity mapping, and personal mission statements to promote student self-exploration and alignment with capstone sites and populations. Mezirow's transformational learning theory is threaded throughout the content designed for the educator. Additional guidance for faculty and capstone coordinators includes exemplar assignments, rubrics, and relevant topics such as artificial intelligence and intellectual property in relation to capstone deliverables. A chapter on post-professional capstones has also been added. Well-organized and full of practical examples of capstone experiences and projects, this book is a vital tool for students in entry-level or post-professional OTD programs as well as their educators and mentors.      **Development of Test Items for the Entry-level Social Worker Class in Selected State and Local Jurisdictions** Kyle Spivey, 1976

### **Aerodynamic Evidence Pertaining to the Entry of Tektites Into the Earth's Atmosphere** Dean R.

Chapman, Howard K. Larson, Lewis A. Anderson, 1962. Evidence is presented which shows that the Australian and Java tektites entered the earth's atmosphere and experienced ablation by severe aerodynamic heating in hypervelocity flight. The laboratory experiments on hypervelocity ablation have reproduced ring wave flow ridges and coiled circumferential flanges like those found on certain of these tektites. Systematic striae distortions exhibited in a thin layer beneath the front surface of australites also are reproduced in the laboratory ablation experiments and are shown to correspond to the calculated distortions for aerodynamic ablation of a glass. About 98 percent of Australian tektites represent aerodynamically stable configurations during the ablative portion of an entry trajectory. Certain meteorites exhibit surface features similar to those on tektites.      *Journal* Bath and West and Southern Counties Society, 1924      *The Central Provinces Gazette* Central Provinces (India), 1917      *Revised Statutes of the United States, Passed at the First Session of the Forty-third Congress, 1873-74; Embracing the Statutes of the United States, General and Permanent in Their Nature, in Force on the First Day of December, One Thousand Eight Hundred and Seventy-three, as Revised and Consolidated by Commissioners Appointed Under an Act of Congress (etc.).* Mit 2 Suppl.-Vol [Anonymus AC10343482], 1875      *Select Cases and Other Authorities on*
