*The Essentials of Economic Integration* Victoria Curzon, Victoria Curzon Price, 1974      *The Essentials of Economic Integration* Victoria Curzon, 1974      **The essentials of economic integration** Victoria Curzon, 1974      Annotated Basic Documents and Descriptive Directory of International Organizations and Arrangements Henry G. Schermers, M. Leeuwen-Boomkamp, Paul J.G. Kapteyn, Pieter H. Kooijmans, R.H. Lauwaars, 2024-12-30      **Regional Cooperation, Organizations and Problems** Rudolf Bernhardt, 2014-05-12 Encyclopedia of Public International Law 6 Regional Cooperation Organizations and Problems focuses on regional organizations cooperation and problems including boundary disputes membership and functions of organizations The publication first elaborates on the American Canadian Boundary Disputes and Cooperation American Mexican Boundary Disputes and Cooperation Andean common market League of Arab States and the Association of South east Asian Nations Discussions focus on structure and organization activities evaluation membership functions and establishment objectives and principles The text then examines the Balkan Pact of 1953 1954 Belgium Luxembourg Economic Union Benelux Economic Union and boundary disputes between China and USSR The manuscript considers the boundary disputes in Latin America and Africa Council for Mutual Economic Assistance European Atomic Energy Community European Coal and Steel Community and the European Conference of Postal and Telecommunications Administrations The publication also takes a look at the Economic Community of West African States European Atomic Energy Community and the European Atomic Energy Society The book is a vital source of information for researchers interested in regional organizations cooperation and problems      **International Commodity Control** Fiona Gordon-Ashworth, 2024-02-01 Originally published in 1984 at a time when international commodity control was brought from the periphery to the centre of international trade policy this book provided a new and more comprehensive approach to and an analytical appraisal of international commodity controls from their origins in the 1920s to their widespread acceptance as an important element in international trade policy in the 1970s The first part establishes the economic and institutional background against which controls were introduced and includes sections on a wide range of issues such as the changing structure of world commodity trade and the roles of GATT UNCTAD and the former EEC Part 2 considers the principal control mechanisms which have been used at the international level and review the national counterparts and alternatives Part 3 assesses on a commodity by commodity basis how the control worked in practice It covers all the international commodity agreements to 1982 and also considers examples of raw material cartels      **FDI, Regionalism, Government Policy and Endogenous Growth** Anthony Bende-Nabende, 2018-08-20 Published in 1999 this text investigates whether FDI caused spill over effects which have led to the economic growth of the ASEAN 5 economies and if that it so whether the ASEAN Preferential Trade Agreement APTA had a significant effect in attracting FDI to the region It takes into account the different levels of economic development of the countries under analysis The results from the structural static model suggest

that FDI has stimulated economic growth through the human factors followed by technology transfer international trade and learning by doing and that the formation of APTA had a lagged influence on FDI inflows into the advantage of the more developed member countries and the disadvantage of the less developed countries Those from the multiplier dynamic effects analysis demonstrate that whereas the impact is immediate in the more developed politically stable and foreign investment friendly economies there is a time lag in those economies which are less developed and more hostile to FDI The analysis presents an empirical comparison of how the level of economic development affects the interaction of FDI regionalism and economic growth

Globalisation, Domestic Politics and Regionalism Helen E.S. Nesadurai,2003-09-02 This book examines the relationship between globalisation and regionalism through a detailed analysis of the ASEAN Free Trade Area AFTA project It analyses how the interaction between globalisation and domestic politics shaped the evolution of AFTA over the past 10 years arguing that although AFTA was triggered primarily by the pressures of globalisation it was a tussle between the imperatives of growth and domestic distribution that shaped the way economic cooperation unfolded and the forms it took
