The Search For Community Power:

The Search for Community Power Willis D. Hawley, Frederick M. Wirt, 1974 *State and Local Politics* David Berman, 1999-09-28 Politics at the state and local level has never been more interesting than in our devolutionary age This popular text is the most concise readable and current introduction to the field Now in its ninth edition the book keeps its focus on the varied and changing political and economic environments in which state and local governments function and their strengths and weaknesses in key areas of public policy The text is enlivened by boxed sections that relate individual experiences or highlight particular issues and developments Topics covered in this edition include the drive toward devolution in the federal system taxation and budgeting the death penalty tort reform and changing approaches to welfare education land use and waste management

Elites and Economic Development John Walton, 2014-09-10 This book is a detailed comparative analysis of development politics in four urban regions of Latin America two in Mexico and two in Colombia John Walton has based his studies on the assumption that the problems of economic growth are essentially political that is are problems of choice decision making and the exercise of power His fundamental purpose has been to discover how elites of different kinds are more and less successful in the promotion of economic development which he defines as a process in the organization of a society leading not only to higher levels of efficient output but also to a more equitable distribution of benefits At the time the four cities compared were the second and third largest metropolitan areas in each country Guadalajara and Monterrey in Mexico Medell n and Cali in Colombia This selection allows the author to pair across countries cases of early and large scale industrialization Monterrey and Medell n with cases of more recent industrial growth in agricultural commercial centers Guadalajara and Cali Walton presents historical introductions to each of the regions and integrates these with original fieldwork and interviews with more than three hundred members of the political and economic elites The findings are extensive but in general they demonstrate that where political and economic power is more broadly distributed where elites are more open and accessible and where organizational life is more active and coordinated regions tend to develop qualitatively as well as quantitatively showing increases both in productivity and in such benefits as public services housing education and a more balanced distribution of income If these characteristics are absent regions may be industrialized but do not provide a broad sharing of the benefits Walton places a good deal of emphasis on the role of foreign investments demonstrating that the more penetrated regions are also the less developed Finally the results of these studies are used to evaluate and advance theories of underdevelopment and particularly of economic dependency

Community Power and Empowerment Brian D. Christens, 2019-01-16 Community Power and Empowerment synthesizes research and practice on the topics of community power and empowerment and by doing so address key questions in the practice community psychology and related fields The first section of the book will provide foundational information on community power and empowerment the second roles played by human development and organizational development in social change

and how empowerment relates to health The book guides readers in designing empowering practices and interventions as well as programs of research and evaluation

Urban Latin America Alejandro Portes, John Walton, 2014-09-10 Much research on the city in developing societies has focused mainly on one of three areas planning demography or economics and has emphasized either power elites or the masses but not both The published literature on Latin America has reflected these interests and has so far failed to provide a comprehensive view of Latin American urbanization Urban Latin America is an attempt to integrate research on Latin American social organization within a single theoretical framework development as fundamentally a political problem Alejandro Portes and John Walton have included material on both elites and marginal populations and on the three major areas of research in order to formulate and address some of the key questions about the structure of urban politics in Latin America Following an introduction that delineates the scope of Latin American urban studies Portes discusses the Latin American city as a creation of European colonialism He goes on to examine political behavior among the poor with central reference to system support and countersystem potential Walton provides material for a comparative study of four cities Monterrey and Guadalajara in Mexico and Medell n and Cali in Colombia He also summarizes a large number of urban elite studies and develops a theoretical interpretation of their collective results based on class structure and vertical integration Material in each chapter is cross referenced to other chapters and the authors have used a common methodological approach in synthesizing and interpreting the research literature In the final chapter they generalize current findings elaborating on the interface between elite and mass politics in the urban situation They make some observations on approaching changes and pinpoint possible research strategies for the future

Community Power Structure Shyam Nandan Chaudhary, 1993 Study in Indian context Communities Dennis E. Poplin, 1979 *Community Development Abstracts* Sociological Abstracts, inc., New York, 1964 **Proceedings of the Central States Anthropological Society, Selected Papers** Central States Anthropological Society (U.S.), 1976 Political Influence of the Resident Hasidic Community on the East Ramapo Central School District Daniel D. Alexander, 1984 *The Search for Community* George Melnyk, 1985 The Search for Community offers a fascinating look at co operative forms as diverse as the kibbutzim in Israel the Kolkhoz of the Soviet Union the Basque co ops in Spain and the Hutterite communities of Western Canada among many others The achievements and failures of the various co ops whether religious nationalist cultural social or economic in basis are assessed with a view to extracting those features which would best meet the needs of a modern Western community in search of equality and meaning Melnyk s vision of such a social co operative would draw into a unified community the various workers housing consumer and service co ops which presently exist Using his extensive knowledge of developments on the international scene he points out the creative possibilities inherent in a society of true co operation George Melnyk who lives in Canada was raised in Winnipeg and educated at the University of Chicago and the University of Toronto He has written two previous books *Of the Spirit* the Writings of Douglas Cardinal and *Radical Regionalism* The Metropolis, Its People, Politics, and Economic Life John Constantinus Bollens, Henry J. Schmandt, 1975 Monograph on the phenomenon of urban development in the USA covers local government the social structure of the urban population the urban area labour market social problems urban planning political aspects the service sector future trends etc Bibliography pp 373 to 385 graphs illustrations maps and statistical tables *Political and Social Foundations of Education* Frederick M. Wirt, Michael W. Kirst, 1975 **Regime Politics** Clarence Nathan Stone, 1989 From the end of Georgia s white primary in 1946 to the present Atlanta has been a community of growing black electoral strength and stable white economic power Yet the ballot box and investment money never became opposing weapons in a battle for domination Instead Atlanta experienced the emergence and evolution of a biracial coalition Although beset by changing conditions and significant cost pressures this coalition has remained intact At critical junctures forces of cooperation overcame antagonisms of race and ideology While retaining a critical distance from rational choice theory author Clarence Stone finds the problem of collective action to be centrally important The urban condition in America is one of weak and diffuse authority and this situation favors any group that can act cohesively and control a substantial body of resources Those endowed with a capacity to promote cooperation can attract allies and overcome oppositional forces On the negative side of the political ledger Atlanta s style of civic cooperation is achieved at a cost Despite an ambitious program of physical redevelopment the city is second only to

Newark New Jersey in the poverty rate Social problems conflict of interest issues and inattention to the production potential of a large lower class bespeak a regime unable to address a wide range of human needs No simple matter of elite domination it is a matter of governing arrangements built out of selective incentives and inside deal making such arrangements can serve only limited purposes The capacity of urban regimes to bring about elaborate forms of physical redevelopment should not blind us to their incapacity to address deeply rooted social problems Stone takes the historical approach seriously The flow of events enables us to see how some groups deploy their resource advantages to fashion governing arrangements to their liking But no one enjoys a completely free hand some arrangements are more workable than others Stone s theory minded analysis of key events enables us to ask why and what else might be done Regime Politics offers readers a political history of postwar Atlanta and an elegant innovative and incisive conceptual framework destined to influence the way urban politics is studied
