Time For Reform:

The Dimensions of Time and the Challenge of School Reform Patricia C. Gandara, 2000-01-01 Annotation As the education reform movement matures into its second decade it is clear that many promising efforts have fallen short in their attempts to create real school change One reason for this is that the process of school reform is much more complex than most reformers realized or were willing to acknowledge The Dimensions of Time and the Challenge of School Reform points to another problem the problem of time and its role in both the success and failure of school reform efforts The importance of understanding the role that time plays in both learning and instruction and finding ways to provide time for teachers grappling with change and students learning to accommodate a new language and culture are important themes in this book This book is directed to policymakers and practitioners as well as to academics in that it combines theory with the real world experiences of many who have been active in the school reform movement and who have learned through trial and error how to think about time in innovative ways Book jacket [Russian Military Reform, 1992-2002](#) Anne C. Aldis, Roger N. McDermott, 2004-11-23 Military reform has featured prominently on the agenda of many countries since the end of the Cold War necessitated a re evaluation of the strategic role of the armed forces and nowhere more publicly than in Russia Not since the 1920s have the Russian Armed Forces undergone such fundamental change President Boris Yeltsin and his successor Vladimir Putin have both grappled with the issue with varying degrees of success An international team of experts here consider the essential features of Russian military reform in the decade since the disintegration of the USSR Fluctuations in the purpose and priorities of the reform process are traced as well as the many factors influencing change Chapters analyse the development of Russia s security policy structural reform of the services the social impact of military service and experience of military conflict in Chechnya Critical evaluations of the impact of social change on the Russian Armed Forces capabilities and expectations complement the analysis of the on going debate Russian Military Reform 1992 2002 will prove invaluable to all those interested in civil military relationships and international security as well as to students of military theory and practice *Undiplomatic History* Asa McKercher, Philip Van Huizen, 2019-04-30 When the field of Canadian history underwent major shifts in the 1990s international history became marginalized and the focus turned away from foreign affairs Over the past decade however the study of Canada and the world has been revitalized Undiplomatic History charts these changes bringing together leading and emerging historians of Canadian international and transnational relations to take stock of recent developments and to outline the course of future research Following global trends in the wider historiography contributors explore new lenses of historical analysis such as race gender political economy identity religion and the environment and emphasize the relevance of non state actors including scientists athletes students and activists The essays in this volume challenge old ways of thinking and showcase how an exciting new generation of historians are asking novel questions about Canadians interactions with people and places beyond the country s borders From human

rights to the environment and from medical internationalism to transnational feminism Undiplomatic History maps out a path toward a vibrant and inclusive understanding of what constitutes Canadian foreign policy in an age of global connectivity
