## **Tiny Star:**

**The Tiny Star** Arthur Ginolfi, 2019-12-17 You're never too small to be a part of God's big plan. Starlet is the smallest star in the sky, much too small to ever be seen by anyone on earth. Though she wants to twinkle and sparkle like the other stars around her, it doesn't seem like it will ever be possible. Even though the wise old moon assures her it will be so, one night Starlet begins to fall to earth, and there she finds that even the smallest stars can play a big role. This inspiring story, alongside bright illustrations, will touch both parents and children alike. The **Tiny Star** teaches your child that even the most unassuming people, like a little baby born in a manger, can go on to play the biggest roles imaginable. **20 Sweet Bedtime Stories for Kids** Arya, 2026-03-07 **20 Sweet Bedtime Stories for Kids** is a delightful collection of calming short stories designed to help children relax, feel safe, and drift gently into sleep. Bruce Gardiner has inspired generations of teachers and scholars in the field of literary criticism. He stands for a scholarly ethos which is at risk of disappearing. His distinctive academic career, which was entirely devoted to research-led teaching, invites us to think about the relationships between literary studies and pedagogy. It also invites us to ask what role a unique pedagogical style plays in the evolution of a discipline. How does intergenerational transmission between teacher and student play out both within and beyond disciplinary boundaries? This collection explores these questions while also documenting Gardiner's methods of scholarly as much as professional resistance to the neo-liberalisation and neo-conservatism of contemporary academic culture. Contributors draw from inspiring encounters with him to reflect upon the

rhetoric and motifs of pedagogy within literary works They put Gardiner s mode of reading into practice by offering new interpretations of pedagogical mechanisms employed within important literary works from the seventeenth century to the present and of cultural phenomena like colonial interpretations of the Australian lyrebird s song The volume also offers pieces inspired by Gardiner such as poetry art translation and creative non fiction as well as three unpublished lectures by Gardiner himself Techniques and methodologies of literary education are traditionally believed to offer students the keys with which to unlock the secrets of texts and foster their appreciation Literature and Pedagogy offers a new perspective showing teachers and students of both education and literature how literary works present their own methods for reflecting critically upon how and why we learn read and teach
