

Preventing slips, trips and falls

Health and Safety at Work etc Act 1974

1. Know the risks

Slips, trips and falls are some of the main causes of workplace injury.

Make sure you and your team understand the hazards in your workplace.

2. Spillages

Clean spillages up immediately. Make sure your team know about the hazard and put down proper signage.

3. Cables

Make sure cables do not impede walkways. If cables have to cross a walkway, solutions such as cable curbs can minimise the risk.

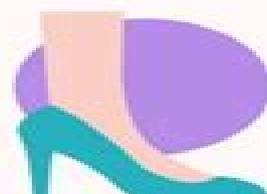

4. Obstructions

Avoid leaving objects in places where they may be a trip hazard. Keep walkways especially clear.

5. Flooring

If uneven or broken flooring looks like it could be a hazard, make sure to report it so that it can be fixed, contained or avoided.

6. Footwear

Communicate what footwear is required in your workplace, and reinforce it with signage.

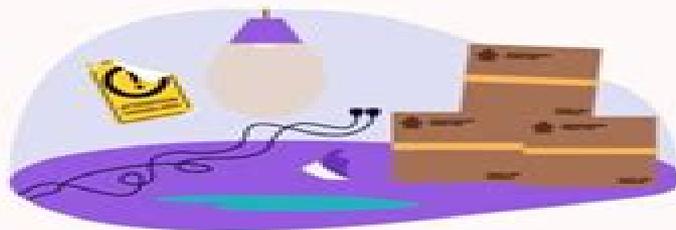

7. Lighting

Make sure your lighting is appropriate for working and spotting hazards.

8. Preventing accidents

Make spotting and handling trip hazards part of your risk strategy.

A safer work environment

Implement a workplace strategy around slips, trips and falls:

1. Speak to your team about which areas of your workplace contain slip and trip hazards. Communication is vital!
2. Minimise risks through removing hazards, fixing issues and changing behaviours.
3. Carry out regular checks to make sure the workplace is safe and your team are working to avoid risk.
4. Write your policy, actions and lessons into your risk assessment.

Tips For Trips
