**Universe's Intelligent Design Via Evolution (UIDE)** © Thomas Edward Fairbairn, 2008 The WIT Particle is a roadmap to Newton's Universe's Ether Sea construction and operation UIDE teaches about Earthmen connected through super Internet like networks to better understand the universe and its eternal existence Page 4 of cover **Science and Spirituality... bridging the gap** Kayume Baksh, 2019-05-29 This book provides a fascinating well researched and thorough discussion of the connections between science and spirituality including religion It is eye opening and allows readers to truly redefine how they look at these disciplines while providing at the same time a vibrant perspective for those embarking on such an exercise for the first time Science investigates the physical world where space time and matter comprise the main aspects of its empirical approach that is of physically proving all that there is around us Spirituality goes beyond the physical Here physical quantities become nonexistent and so our connections are perceived through seemingly nonrational but hardly irrational unscientific means Religion is rendered useless as a way of explaining how the universe works Quantum mechanics an integral part of modern physics is helping to bring about a closer convergence by showing remarkable similarities between advanced scientific observations and what has been taught for centuries in the wisdom traditions known as spirituality this insightful information continues to amaze us like none before We therefore now have the right combination and evidence to show why the gap between science and spirituality must be bridged so that we can finally embrace the answers to the mystery questions about the universe and life This thought provoking book provides the details you need We stand on the verge of heralding a new paradigm or rather a metaparadigm the mother of all paradigms one that unfolds a new vision of reality that includes consciousness for the first time not excludes it as science still does Whether you belong to a religion or not are a spiritualist an atheist an agnostic or just curious about the universe and life this book is for you

**Formation of the Solar System** V.I. Ferronsky, S.V. Ferronsky, 2013-02-11 Analysis of the orbital motion of the Earth the Moon and other planets and their satellites led to the discovery that all bodies in the Solar System are moving with the first cosmic velocity of their proto parents The mean orbital velocity of each planet is equal to the first cosmic velocity of the Protosun the radius of which is equal to the semi major axis of the planet's orbit The same applies for the planets satellites All the small planets comets other bodies and the Sun itself follow this law a finding that has also been proven by astronomical observations The theoretical solutions based on the Jacobi dynamics explain the process of the system creation and decay as well as the nature of Kepler's laws **XiFiSy** Chris Landau, **Vortex Universe** Mario Prioletta, 1985
