Vulnerable Observer:

The Vulnerable Observer Ruth Behar, 1996 In classical anthropology subjects of study are seen as vulnerable while their observers are instructed to remain detached and objective Yet with the emergence during the last decade of a group of anthropologists with recognizable connections to the cultures in which they work the lines between participant and observer insider and outsider are no longer so easily drawn In *The Vulnerable Observer* the award winning anthropologist Ruth Behar offers a new theory and practice for this humanistic anthropology No longer looking over others shoulders she becomes one of the subjects of study as she reflects upon the observer as well as the observed Eloquently interweaving ethnography and memoir Ruth Behar reflects on fieldwork in Spain Cuba and the United States through her personal stories of loss as a young Cuban Jewish immigrant Beginning with a poignant essay exploring the refuge she found in her fieldwork as her grandfather died she proposes an anthropology that is lived and written in a personal voice in the hope that it will lead us toward greater depth of understanding and feeling for those about whom we write *The Vulnerable Observer* Ruth Behar, 2022-11-15 The 25th anniversary edition of the groundbreaking book that changed anthropology asserting that ethnographers need not exclude themselves or their vulnerabilities from their work In a new epilogue to this classic work renowned ethnographer and storyteller Ruth Behar reflects on the groundbreaking impact *The Vulnerable Observer* has had on anthropology sociology and psychology and on scholarly writing A pocket companion for writers journalists documentarians and activists alike this book speaks to the power of including oneself in the story bringing deeper meaning to the relationship between writer subject and reader In a move revolutionary for its time *The Vulnerable Observer* proposed a new theory and practice for humanistic anthropology No longer should ethnographers write at a distance clad in their shroud of objectivity In six luminous essays Behar calls instead for a fresh approach to ethnography one that is lived and written more openly Through this very personal account readers can travel and relate to other peoples and the world around them Eloquently interweaving ethnography and memoir Behar encourages her readers to be open about their experiences as open as their subjects are with them She does so in the hope that this work will lead us toward greater depth of understanding and feeling not only in anthropology but in all efforts to document the shared vulnerability of the observed and the observer **The Wounded Researcher** Robert D. Romanyshyn, 2020-08-14 *The Wounded Researcher* addresses the crises of epistemological violence when we fail to consider that a researcher is addressed by and drawn into a work through his or her complexes Using a Jungian Archetypal perspective this book argues that the bodies of knowledge we create degenerate into ideologies which are the death of critical thinking if the complexity of the research process is ignored Writing with soul in mind invites us to consider how we might write down the soul in writing up our research [Erotic Faith](#) Mari Kim, 2022-03-24 The thought of contemporary North American theologian and ethicist Wendy Farley is an unflinching clarion call to justice and compassion Farley invites us to discover ways of embodying the deep compassion capable of resisting pernicious distortions and

traumatizing injustices that harm and dehumanize us all This volume of essays embodies her invitation to awaken as beloved community And when we are overwhelmed by the magnitude of struggle and despair Farley reminds us that the powerful longing of hope at times against all evidence refuses to give up on seeking justice and wholeness Compassionate justice radical hospitality creative liberation and deep listening emerge as more than ethical values for Farley they are expressions of erotic faith a praxis of faithfulness born of divine desire These writings explore transformative perspectives and practices that have the capacity to help us recover and author our identity as the god bearers we are Erotic faith embodies the love seeking persistence of divine faithfulness necessary to transform us from within it meets the truth of human harm vulnerability and suffering by offering a complex struggling unscripted creativity capable of remaking us and our world until the beloved community is whole

Thinking through the Mothers Janet Beizer, 2011-03-15 If questions of subjectivity and identification are at stake in all biographical writing they are particularly trenchant for contemporary women biographers of women Often their efforts to exhume buried lives in hope of finding spiritual foremothers awaken maternal phantoms that must be embraced or confronted Do women writing in fact have any greater access to their own mothers lives than to the lives of other women whose stories have been swept away like dust in the debris of the past In *Thinking through the Mothers* Janet Beizer surveys modern women s biographies and contemplates alternatives to an approach based in lineage and the form of thought that emphasizes the line the path hierarchy unity resemblance reflection and the aesthetic mimesis that depends on these ideas Through close readings of memoirs and fictions about mothers Beizer explores how biographers of the women who came before rehearse and rewrite relationships to their own mothers biographically as they seek to appropriate the past in a hybrid genre she calls bio autobiography *Thinking through the Mothers* features the work of George Sand and Colette and spans such varied figures as Gustave Flaubert Julian Barnes Louise Colet Eunice Lipton Vladimir Nabokov Huguette Bouchardeau and Christa Wolf Beizer seeks an alternative to women s salvation biography or resurrection biography that might resist nostalgia be attentive to silence and reinvent the means to represent the lives of precursors without appropriating traditional models of genealogy

Transcending Shadows Yao Lin, 2024-10-03 Based on interviews with three generations of three families this book clarifies why the Cultural Revolution in China 1966 1976 had a uniquely traumatic impact on those affected and shows the forms this trauma has taken in the lives of their second and third generations at both inter subjective and intra psychic levels As a psychoanalytically oriented qualitative study of the aftermath of the Cultural Revolution this book investigates the role played by the beliefs practices and narratives which were ideologically formative during the Cultural Revolution showing their role in the trans generational transmission of trauma and how they still prevent a collective means of dealing with this trauma today Instead of a collective remembering a collective repression prevents the symbolization of memory on a societal level and families serve as a space for this unresolved trauma In this context psychoanalysis is shown to be an effective way of interrupting and healing the transmission

of trauma across the generations Within a longer historical framework this book also explores the Cultural Revolution as a defensive compulsory repetition of the traumas that China had previously experienced on a political and cultural level Bearing witness to a personal process of transforming a wound into work this first person account offers in depth understanding and guidance for psychotherapists and psychoanalysts engaged in interrupting and healing the trans generational transmission of trauma

Qualitative Research Design and Methods Kathleen deMarrais, Kathryn Roulston, Janie Copple, 2024-01-08 Written by scholars from three generations of qualitative methodologists Qualitative Research Design and Methods An Introduction situates qualitative research within the history of the field and integrates this history within discussions of specific research designs This novel approach allows readers to come to know the genealogy of the field and how previous generations of scholars have informed what we know today as qualitative research The text reflects these more traditional as well as emerging qualitative research approaches providing a theoretically grounded approach to designing and implementing qualitative research studies While some introductory research texts focus on the specific methods of qualitative research with little attention to the role of theory this book forefronts theory in qualitative research The authors speak to students new to qualitative research with clear discussions of theory and theoretical concepts and how those notions must be considered throughout all aspects of research design implementation and representation of findings Each chapter integrates discussion of theory In addition the book highlights the role of ethics in the same way with a chapter at the beginning as well as discussions of ethics threaded throughout each of the design chapters Qualitative Research Design and Methods is THE introductory textbook for students taking introductory masters and doctoral courses in qualitative research Instructors in those classes will appreciate the straightforward language and concepts provided by the authors Perfect for courses such as Introduction to Qualitative Research and Qualitative Research Design
