## **Wac Bennett:**

W.A.C. Bennett and the Rise of British Columbia David Joseph Mitchell, 1983 *Conversations with W. A. C. Bennett*  
Roger Keene, William Andrew Cecil Bennett, David C. Humphreys, 1980 *W.A.C. Bennett* David J. Mitchell, 1995-01-01 A  
*Long Way to Paradise* Robert A.J. McDonald, 2021-10-15 The political landscape of British Columbia has been characterized  
by divisiveness since Confederation As outsized personalities from Amor De Cosmos to W A C Bennett dominated the halls of  
power militant radicals and reformers took to the streets and hustings A Long Way to Paradise traces the evolution of  
political ideas from 1871 to 1972 to explore British Columbia s journey to socio political maturity answering both why and  
how British Columbia became Canada s most fractious province Robert McDonald explains its classic left right divide as a  
product of common sense liberalism that also shaped how British Columbians met the challenges of a modernizing world  
McDonald tackles key questions Why were the Liberal and Conservative parties obliterated in the 1950s What can account  
for Bennett s decades long reign And why did parties as diametrically opposed as Social Credit and the NDP succeed This  
lively overview provides fresh insight into the fascinating story of provincial politics in Canada s lotus land *Annual Report*  
*- Minister of Mines and Petroleum Resources* British Columbia. Department of Mines and Petroleum Resources, 1968 My  
Friend W.A.C. Bennett Jim Ryan, 1980 Sustaining the West Liza Piper, Lisa Szabo-Jones, 2015-03-31 Western Canada s  
natural environment faces intensifying threats from industrialization in agriculture and resource development social and  
cultural complicity in these destructive practices and most recently the negative effects of global climate change The  
complex nature of the problems being addressed calls for productive interdisciplinary solutions In this book arts and  
humanities scholars and literary and visual artists tackle these pressing environmental issues in provocative and  
transformative ways Their commitment to environmental causes emerges through the fields of environmental history  
environmental and ecocriticism ecofeminism ecoart ecopoetry and environmental journalism This indispensable and timely  
resource constitutes a sustained cross pollinating conversation across the environmental humanities about forms of  
representation and activism that enable ecological knowledge and ethical action on behalf of Western Canadian  
environments yet have global reach Among the developments in the contributors construction of environmental knowledge  
are a focus on the power of sentiment in linking people to the fate of nature and the need to decolonize social and  
environmental relations and assumptions in the West Institutionalized Cabinet Christopher Dunn, 1995-06-22 Dunn  
investigates factors leading to the initiation and persistence of institutionalized cabinets in the governments of T C Douglas  
in Saskatchewan Duff Roblin and Walter Weir in Manitoba and W R Bennett in British Columbia He describes the transition  
from unaided or relatively uncoordinated central executive structures to those that are more structured collegial and prone  
to emphasize planning and coordination He also examines how the premier s role has expanded from simply choosing  
cabinets to reorganizing their structure and decision making processes as well The institutionalization of provincial cabinets

has had major effects on both political actors and functions in the three provinces studied Dunn shows that cabinet structure has changed and been changed by power relations within the cabinet

Geomechanics and Geotechnics of Particulate Media Masayuki Hyodo, Hidekazu Murata, Yukio Nakata, 2017-12-14 Microscopic re examination of geomaterials consisting of aggregates can shed light on macroscopic behaviour including compressibility anisotropy yielding creep cyclic liquefaction and shear rupture As a result of this process of examination new methods of material characterization emerge leading to a greater degree of accuracy in the specification of new constitutive models with physically meaningful parameters The impetus behind this development is an increasing awareness on sustainability leading to the more efficient use of recycled materials for geotechnical applications The characteristics of recycled materials such as compressibility and self hardening may differ significantly from those of natural materials and it is crucial that evaluation is made from a specifically particulate perspective

*Dam Surveillance - Lessons Learnt From Case Histories / Surveillance des Barrages - Leçons Tirées d'Études de cas* ICOLD CIGB, 2022-09-01

ICOLD Bulletin 180 presents the vast experience gained over the past 6 decades by the dam engineering community in the field of dam surveillance by means of 80 case histories The documented case histories endeavour to cover the practical experiences related with one or several of the following points

- Methods for the improvement of the quality and reliability of information
- Data processing and representation techniques
- Effective Diagnostic analyses to determine behaviour patterns
- Dedicated surveillance systems for the optimization of maintenance rehabilitation and other life cycle costs
- Impact of surveillance on preventing dam incidents and dam failure
- Overview of dam surveillance management systems

The case histories cover a wide variety of technical aspects and deal with success stories but also incidents some of them with catastrophic consequences The time framework spans over 70 years from the times of the Second World War up to the present The purpose is to learn from these practical experiences not to criticize the involved individuals who had to work with the techniques and rules of practice available at the time This bulletin wants to contribute to keep learning from the experience of the dam engineering community specifically in the field of dam surveillance Some of the case histories are widely known and have been described and analysed in numerous publications Most of them are related to famous dam failure incidents and were compiled as international benchmark case histories for this bulletin to focus on the specific lessons learnt related with dam surveillance

Le Bulletin de la CIGB 180 présente la vaste expérience acquise au cours des 6 dernières décennies par la communauté des ingénieurs de barrages dans le domaine de la surveillance des barrages au moyen de 80 histoires de cas Les histoires de cas documentées s'efforcent de couvrir les expériences pratiques liées à un ou plusieurs des points suivants

- Méthodes d'amélioration de la qualité et de la fiabilité de l'information

*Many Wests* David M. Wrobel, Michael C. Steiner, 1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West s regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West s different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions
