Terror in the Mind of God, Fourth Edition Mark Juergensmeyer, 2017-03-28 Completely revised and updated this new edition of Terror in the Mind of God incorporates the events of September 11 2001 into Mark Juergensmeyer s landmark study of religious terrorism Juergensmeyer explores the 1993 World Trade Center explosion Hamas suicide bombings the Tokyo subway nerve gas attack and the killing of abortion clinic doctors in the United States His personal interviews with 1993 World Trade Center bomber Mahmud Abouhalima Christian Right activist Mike Bray Hamas leaders Sheik Yassin and Abdul Azis Rantisi and Sikh political leader Simranjit Singh Mann among others take us into the mindset of those who perpetrate and support violence in the name of religion Provided by publisher

Engines Of Discovery: A Century Of Particle Accelerators (Revised And Expanded Edition) Edmund Wilson, Andrew Sessler, 2014-04-17 The first edition of Engines of Discovery celebrated in words images and anecdotes the accelerators and their constructors that culminated in the discovery of the Higgs boson But even before the Higgs was discovered before the champagne corks popped and while the television producers brushed up their quantum mechanics a new wave of enthusiasm for accelerators to be applied for more practical purposes was gaining momentum Almost all fields of human endeavour will be enhanced by this trend energy conservation medical diagnostics and treatment national security as well as industrial processing Accelerators have been used most spectacularly to reveal the structure of the complex molecules that determine our metabolism and life For every accelerator chasing the Higgs there are now ten thousand serving other purposes It is high time to move from abstract mathematics and philosophy to the practical needs of humankind It is the aim of this revised and expanded edition to describe this revolution in a manner which will attract the young not only to apply their curiosity to the building blocks of matter but to help them contribute to the improvement of the quality of life itself on this planet As always the authors have tried to avoid lengthy mathematical description In describing a

field which reaches out to almost all of today's cutting edge technology some detailed explanation cannot be avoided but this has been confined to sidebars References guide experts to move on to the journal Reviews of Accelerator Science and Technology and other publications for more information But first we would urge every young physicist teacher journalist and politician to read this book

Strategic Studies Thomas Mahnken, Joseph Maiolo, 2014-01-10 The second edition of Strategic Studies A Reader brings together key essays on strategic theory by some of the leading contributors to the field This revised volume contains several new essays and updated introductions to each section The volume comprises hard to find classics in the field as well as the latest scholarship The aim is to provide students with a wide ranging survey of the key issues in strategic studies and to provide an introduction to the main ideas and themes in the field The book contains six extensive sections each of which is prefaced by a short introductory essay The Uses of Strategic Theory Interpretation of the Classics Instruments of War Intelligence and Deception Nuclear Strategy Irregular Warfare and Small Wars Future Warfare Future Strategy Overall this volume strikes a balance between theoretical works which seek to discover generalisations about the nature of modern strategy and case studies which attempt to ground the study of strategy in the realities of modern war This new edition will be essential reading for all students of strategic studies security studies military history and war studies as well as for professional military college students

The Unfinished History of European Integration Koen Zon, Matthew Broad, Aleksandra Komornicka, Paul Reef, Alessandra Schimmel, 2025-10-01 The Unfinished History of European Integration is a companion to the history of the European Union From the aftermath of the First World War to the EU of 27 member states and Russia's invasion of Ukraine it guides the reader past the main events crucial sites and key actors that shaped the EU we know today How did it evolve from a market project to a geopolitical force what explains the expansion of its membership institutions policies and the resistance to this growth and why does it function as it does This book provides more than just a chronological account of over seventy years of European integration It also shows how observers past and present have made sense of the EU The Unfinished History of European Integration is therefore a unique introduction for readers with different disciplinary backgrounds to understanding the EU If over seventy years of European integration have taught us anything it is that fundamental crises as well as moments of rapid institutional change have been constants in its history
