

A person wearing a bright yellow long-sleeved shirt and grey shorts stands on a rocky outcrop. Their arms are outstretched horizontally, and they are looking out over a vast, hazy mountain range. The scene is captured in a slightly desaturated, high-angle shot, emphasizing the scale of the landscape. The text is overlaid in white, bold, sans-serif font, centered on the image.

“Letting go does not mean abandoning your child. It means allowing your child to learn responsibility and to feel capable.”

of students and parents from around the country and their creative positive solutions to the college dilemma With a college education now costing an average of a hundred thousand dollars maybe it s time for American parents to reconsider Do you really need college to succeed **When Will My Grown-up Kid Grow Up?** Jeffrey Jensen Arnett,Elizabeth

Making School Integration Work Paul Tractenberg,Allison Roda,Ryan Coughlan,Deirdre Dougherty,2020 Many American schools continue to struggle with segregation This important book tells the story of how two school districts one a predominantly White and wealthy suburban community and the other a more diverse and urbanized community were merged into a single district to work toward a solution for school segregation The authors focus on the Morris School District in New Jersey as an exemplar to demonstrate what is possible and how it can be accomplished They document what makes a district like Morris successful and include lessons learned in each chapter Along with analyzing the legal and educational policy implications of the nearly 50 year history of the merged district the authors take a mixed methods approach to deepen our knowledge of effective leadership community school relations and classroom practices in the context of a community committed to genuine integration Book Features Offers a deep analysis of one of the few districts that is making progress toward true integration Examines a local story that has wide applicability to those interested in social justice enlightened leadership and equitable educational opportunities for all students Employs qualitative and quantitative research along with GIS mapping to study the legal educational political historical and sociological dimensions of the case study Provides a series of lessons learned from the Morris School District that will assist those engaged in building equitable school systems
