Southern Question:

The Southern Question Antonio Gramsci, 2005 Publisher Description *Italy's 'Southern Question'* Jane Schneider, 2020-05-31 The Southern Question has been a major topic in Italian political economic and cultural life for a century and more. During the Cold War it was the justification for heavy government intervention. In contemporary Italy a major part of the appeal of the Lombard League has been its promise to dissociate the South from the North even to the point of secession. The South also remains a resonant theme in Italian literature. This interdisciplinary book endeavours to answer the following: When did people begin to think of the South as a problem? Who: intellectuals, statisticians, criminologists, political exiles, novelists among them, some important southerners contributed to the discourse about the South and why? Did their view of the South correspond to any sort of reality? What was glossed over or ignored in the generalized vision of the South as problematic? What consequences has the Question had in controlling the imaginations and actions of intellectuals and those with political and other forms of power? What alternative formulations might people create and live by if they were able to escape from the control of the Question and to imagine the political economic and cultural differences within Italy in some other way? This timely book reveals how Southern Italians have been affected by distorted versions of a complex reality similar to the discourse of Orientalism. In situating the devaluation of Southern Italian culture in relation to the recent emergence of anti mafia ideology in the South and the threat posed to national unity by the Lombard League it also illuminates the world's stiff inter regional competition for investment capital.

Gramsci and the Southern Question Juan José Gómez Gutiérrez, Carlo Verri, Tommaso Baris, 2025-02-24 This book looks at the Southern question in Antonio Gramsci. It takes this as an opportunity to reflect on the special nature of his thought linked to the concepts of hegemony, subalternity and the critique of the particular cultural, identitarian and ideological forms of the South and its historical development. Although the category was originally applied to the politics and history of Italy, the debates on the Southern question have in recent times gained wider relevance, combining with today's more general analyses relating, for example, to European geopolitics, globalisation and the various global Souths, to media and mass culture etc. In other areas, the Southern question in Gramsci has taken the form of a materialist epistemology connected to the historical phenomenon of the splitting of consciousness as opposed to its unity on a theoretical level. Elsewhere it has become a programme for the application of a strategy of the international left based on the building of alliances between different groups of subalterns. Over time Gramsci's thought has come into contact with other, partly converging perspectives such as critical urban theory and cultural and subaltern studies. This has given rise to numerous fruitful lines of research in which the Southern question has been extended from Italy's own North-South divide to other contexts. What aspect of Gramsci's thought could justify this issue taking on such importance? *Gramsci and the Southern Question: Global Readings, Interpretations and Uses* aims to answer this question by combining general theoretical approaches with studies on the reception of Gramscian concepts in the world's Souths. **The**

City as the Southern Question Ranabir Samaddar, Enrica Morlicchio, Sandro Mezzadra, 2025-12-31 This innovative edited volume places global urbanism in the context of the phenomenal growth of cities of the South investigating their colonial contentiousness and asking how their history plays out in the twenty first century phenomenon of urbanisation Inspired by Antonio Gramsci's reflections on the problem of the South it shows that the question of southern urbanism is about the anomalies and growth of southern cities the histories of struggles technological and logistical reorientations new zoning practices of neoliberal capitalism and the remaking of urban geographies towards a possible urban future that aims to be just Crucially it asks whether today's city is a seamless formation of several overlapping phases of growth or if there is a decisive break today marked by the hyper growth of these cities To understand the implications of these questions for visions of an urban future this volume takes a number of southern cities of Asia and Europe as case studies including Kolkata Mumbai Chittagong Beirut Athens Naples and Marseille It shows how these cities are paradoxically marked by both fractured geographies and new types of popular mobilisations solidarities and an ethic of protection and care showing this to be the core of the Southern question constituting the urban experience of our time It will appeal to advanced level students and scholars with interests in urban sociology Southern urbanisation postcolonial studies political science political economy and urban geography
