you need to have some basic supplies with you These are essential in order to give your clothes a professional look or at least to show that you are serious about tailoring You can add to these supplies as time goes by and you will get more skilled and enthusiastic about how you intend to draft clothes before you cut them out on cloth You may want to do some practice cutting sessions on useless pieces of cloth so that even if you manage to pin the wrong portions together and stitch them together without even finding out what happened during the pinning and sewing process you can just rip the seams open with the seam ripper and begin fresh As I did not want to waste lots of cloth because I have a bit of problem visualizing the end product I should have started young I did my cutting out on sheets of newspaper
