## **Teachers Calling:**

**The Teacher's Calling** Gloria Durka, 2002 Affirms the role of teachers as ministers of personal and social transformation and helps readers celebrate the mystery and wonders of a teacher's calling The Teacher's Calling: an Address Sebastian Ferris Streeter, 1842 Students, Teachers, and Leaders Addressing Bullying in Schools Christa Boske, Azadeh Osanloo, 2016-10-13 The importance of Boske and Osanloo's approach to identifying the crisis of bullying in our society lives within the personal stories shared in this book Readers are reminded that victims of bullying are our own friends neighbors and classmates and those at every level in the community are challenged to be part of the solution The hatred carried out by those who bully impacts all of us not only the individual victims Students Teachers and Leaders Addressing Bullying in Schools captures the tragedy victims face and the urgency of creating a new dialogue amongst our educators Judy Shepard Founder Matthew Shepard Foundation The most important experts on bullying are the students parents and educators who wrestle with its impact every day In this book Boske and Osanloo place them at the center of the dialogue to design lasting solutions and spur the national conscience into action Bias based bullying complicates systemic solutions by activating the isms and phobias that plague us all The bold collective behind this book calls us to get over our own stuff and double down on our efforts to create safe and affirming schools for all students Eliza Byard PhD Executive Director GLSEN The brilliance and boldness of this book lie in two distinguishing features First inspired by the Boske and Osanloo's vision the contributors discuss bullying as precisely what it is not an interpersonal challenge not a cross cultural tension not an issue that can be conflict mediated away but a social justice concern that is connected to bigger societal conditions and injustices Secondly Boske and Osanloo reject the idea that academics are the experts of everybody's experiences and so they open the space on the pages of their book to the targets of bullying and their on the ground advocates The result is revolutionary If you think you understand bullying I dare you to read this book Paul Gorski Founder EdChange Associate Professor Integrative Studies at George Mason University Your Calling as a Teacher Karen B. Tye, 2008 **Gender Trouble Makers** Jennifer Rothchild, 2007-05-07 International development efforts aimed at improving girls lives and education have been well intended somewhat effective but ultimately short sighted and incomplete This is because international development efforts often operate under a reductive understanding of the term gender and how it influences the lives of girls and boys Gender is more commonly conceived by international efforts as characteristics which are ascribed to girls as norms for behaviour In particular the analysis in Gender Trouble Makers focuses on the social constructions of gender and the ways in which gender was reinforced and maintained through a case study in rural Nepal In developing countries like Nepal promoting access to and participation in existing formal education programme is clearly necessary but it is not in itself sufficient to transform gender power relations in the broader society When gender is properly addressed as a process then all stakeholders involved researchers governmental officials and community members can begin to understand and devise more effective ways to
