Conversion Through Penance in the Italian Church of the Fourth and Fifth Centuries Allan Fitzgerald, 1988 This study reviews penance within the context of the spirituality of 4th and 5th century Italy By relating the attitudes toward penance and pardon in those days to the changing social position of the Christian community this text reveals that a new understanding of penance developed as an integral part of the development of the role of the Church in leading sinners to healing and holiness

The Insect Pest Survey Bulletin ,1933 *William Hanson and the Texas-Mexico Border* John Weber,2024-05-14 An examination of the career of Texas Ranger and immigration official William Hanson illustrating the intersections of corruption state building and racial violence in early twentieth century Texas At the Texas Mexico border in the 1910s and 1920s William Hanson was a witness to and an active agent of history As a Texas Ranger captain and then a top official in the Immigration Service he helped shape how US policymakers understood the border its residents and the movement of goods and people across the international boundary An associate of powerful politicians and oil company executives he also used his positions to further his and his patrons personal interests financial and political often through threats and extralegal methods Hanson s career illustrates the ways in which legal exclusion white supremacist violence and official corruption overlapped and were essential building blocks of a growing state presence along the border in the early twentieth century In this book John Weber reveals Hanson s cynical efforts to use state and federal power to proclaim the border region inherently

dangerous and traces the origins of current nativist politics that seek to demonize the border population In doing so he provides insight into how a minor political appointee motivated by his own ambitions had lasting impacts on how the border was experienced by immigrants and seen by the nation
