THE SCIENTIFIC CONSCIENCE

CATHERINE
ROBERTS

Lewis Mumford has said of this book:

"The special value of Dr. Roberts' criticisms of science comes from the fact that she became aware of its inadequacies as a method and a world-view while in the midst of a successful career as a scientist. She is not against science itself when under rational direction and moral control—that goes without saying—but against a method and a philosophy that loses out important human values. Her work, therefore, is part of a broadening stream of criticism from within science, represented by people as eminent as Michael Polanyi, Soren Gyng and Rosalind Dudgeon."
