Humanity Matters Andrew Fellows, 2026-04-16 *Humanity Matters* Re-enchanting Homo Sapiens confronts the deep crisis of identity facing modern society Secularism has increasingly caused people to forget their God-given value but Andrew Fellows argues that recovering a Christian view of personhood offers a compelling and life-affirming alternative Andrew unveils the richness of a biblical anthropology a vision that restores dignity meaning and hope for humanity He invites believers and seekers alike to consider how the truth contained in the Bible could uniquely satisfy humanity's deepest longings Thoughtful timely and accessible *Humanity Matters* is essential reading for anyone yearning to reclaim the wonder of what it means to be truly human

*Theory and Society* Zygmunt Bauman, 2024-06-19 The breadth and depth of Zygmunt Bauman's engagement with social theory and the history of social thought has perhaps been underestimated in part because many of his early writings were in Polish and never translated into English and in part because many important pieces appeared in edited volumes and journals that are not readily available This volume brings together hitherto unknown or rare pieces by Bauman on the theme of theory and society and also makes available previously unpublished material from the Bauman Archive at the University of Leeds A consistent theme of Bauman's work was his sustained engagement with humanism and this provides a unifying thread in the pieces brought together in this volume Here Bauman reflects on some of the core concepts of sociology examines the work of a wide range of social theorists from Durkheim and Gramsci to Agnes Heller and C Wright Mills and addresses an array of key ideas and issues including inequality identity and social change A substantial introduction by the editors provides readers with a lucid guide through this material and develops connections to Bauman's other works This is the third and final volume in a series of books that make available the lesser-known writings of one of the most influential social thinkers of our time It will be of interest to students and scholars across the arts humanities and social sciences and to a wider readership

*Combat Monsters* Henry Herz, 2025-02-11 *Combat Monsters* brings together twenty award-winning and bestselling speculative fiction authors who each bring their own spin on an alternate history of World War II New research has uncovered deeply buried military secrets both the Allied and Axis special operations during World War II included monsters Did the Soviets use a dragon to win the Battle of Kursk Did a vampire fight for the Canadians in Holland Did the US drop the second atomic bomb on a kaiju This collection takes real events from World War II and injects them with fantastical creatures that mirror the unreality of war itself Each story and two poems feature mythical mystical and otherwise unexplainable beings that change the course of history Dragons rise and fall witches cast deadly spells mermaids reroute torpedoes and all manner of monsters intervene for better or worse in the global turmoil of World War II Together *Combat Monsters* challenge the very definition of monstrous

**Thinking about Technology** Gil Germain,2017-08-04 The world we make reflects the way reality is perceived and today the world is perceived primarily in technological terms So argues Gil Germain in Thinking About Technology How the Technological Mind Misreads Reality Given the connection between perception and action or thinking and doing Germain first highlights the central features of technological worldview to better understand the contemporary drive to master the conditions of human existence He then boldly proposes that the technological worldview seriously misreads the nature of the world it seeks mastery over and shows how this misinterpretation invariably leads to the technologically related challenges currently vexing the contemporary social order from the drift toward a posthuman future to the anti globalization backlash Germain closes Thinking About Technology by articulating an alternative worldview to the technological perspective and illustrating how this re reading of reality might help us inhabit the technological landscape in ways better attuned to the human condition      The Life and Times of the Rev.
