Elliott,2023-05-09 Advances an alternative approach to democratic reform that focuses on building institutions that empower people who have little time for politics How do we make democracy more equal Although in theory all citizens in a democracy have the right to participate in politics time consuming forms of participation often advantage some groups over others Where some citizens may have time to wait in long lines to vote to volunteer for a campaign to attend community board meetings or to stay up to date on national state and local news other citizens struggle to do the same Since not all people have the time or inclination to devote substantial energy to politics certain forms of participation exacerbate existing inequalities Democracy for Busy People takes up the very real challenge of how to build a democracy that empowers people with limited time for politics While many plans for democratic renewal emphasize demanding forms of political participation and daunting ideals of democratic citizenship political theorist Kevin J Elliott proposes a fundamentally different approach He focuses instead on making democratic citizenship undemanding so that even busy people can be politically included This approach emphasizes the core institutions of electoral democracy such as political parties against deliberative reforms and sortition Timely and action focused Democracy for Busy People is necessary reading **Cases Reported** Mississippi.
