and forces we have lost our ability to appreciate nature's enchantments. In order to address the threats to our environment, he maintains it is essential to reawaken our sense of awe and look at the world as a glorious creation, an irreplaceable gift of God. In setting forth a new framework for the debate between science and religion on ecological theory, *The Reenchantment of Nature* points the way to integrating two different traditions in a sane and productive effort to rescue the natural world from its present environmental decline. **Emmy**, 2005    **BMJ**, 2001    **Business Review Weekly**, 1992    *The Economist*, 1919
