Times Arrow:

Time's Arrow Martin Amis, 2011-04-06 In this icy knife s edge story of a life that progresses backward through time unfolding into one of the darkest episodes of the 20th century Amis at his intriguing heedful and powerful best Time Out finds a chillingly original approach to the Holocaust in fiction From the acclaimed author of Zone of Interest The narrative moves with irresistible momentum Amis is a daring exacting writer willing to defy the odds in pursuit of his art Newsday Tod T Friendly is living his life in reverse Doctor Friendly has just died but he moves out of blackest sleep to find himself surrounded by doctors and on the deathbed of a man in whose body he is imprisoned After weeks of improving in the hospital he is sent home to his affable melting pot primary colors existence in suburban America As Friendly breaks up with his lovers in a prelude to seducing them and mangles his patients before he sends them home his life races backward toward the one appalling moment in modern history when such reversals make sense From the fresh cut lawns of his retirement to the hustle of New York and then back to the boat which reverses his course to the war torn Europe Friendly came from Amis brings the steeliest nerve to the job of realizing the novel s inevitable logic Trapped in his body from grave to cradle Friendly s consciousness can only watch as he struggles to make sense of the good doctor s most ambitious project yet the final solution

Time's Arrow, Time's Cycle Stephen Jay Gould, 1988-01-01 Stephen Jay Gould s subject is nothing less than geology s signal contribution to human thought the discovery of deep time the vastness of earth s history a history so ancient that we can comprehend it only as metaphor **Time's Arrow, Or, The Nature of the Offence** Martin Amis, 1991 Summary Novel in which the narrator is trapped and hurtling towards a terrible secret *Holocaust Fiction* Sue Vice, 2000 This text presents a critical survey of a broad range of fictional representations of the Holocaust published over the last 20 years *Direction of Time* Sergio Albeverio, Philippe Blanchard, 2013-12-09 This edited book presents the problems of time and direction from an interdisciplinary point of view concentrating in particular on the following relations Time and physics Time philosophy and psychology Time mathematics and information theory It is a unique contribution by philosophers and scientists who are active in mathematics physics biology engineering information theory and psychology Questions such as the existence of a Big Bang the neurobiological basis regarding the coexistence of free will and determinism intercultural aspects of time mathematical models of time psychopathological features of time and micro reversibility versus macroscopic irreversibility are studied It also provides a truly interdisciplinary study of the problematic arrow of time **Time, Eternity, and the Trinity** Eunsoo Kim, 2010-03-01 One of the vital issues in contemporary Christian theology is the problem of a renewed understanding of God s eternity and its relation to time This is not merely a peripheral doctrinal issue but lies at the heart of our understanding of God and humanity and contributes to our entire worldview This study focuses on a long standing debate between two competing views on God s eternity one focused on God s absolute timelessness in classical theism and the other on God s temporal everlastingness in contemporary panentheism In contrast to both of these well worn options this book

presents an alternative Trinitarian analogical understanding of God's eternity and its relation to time especially through a critical reflection on Karl Barth's and Hans Urs von Balthasar's engagement of the issue This analogical approach based on the dynamic and dramatic concepts of God's being in relation and of the Triune God's communicative action in eternity and time has the potential to resolve the debate between absolute timeless eternity and temporal everlasting duration Time Briton Hadden, Henry R. Luce, 1929 *Re-Thinking Time at the Interface of Physics and Philosophy* Albrecht von Müller, Thomas Filk, 2015-05-19 The current volume of the Parmenides Series On Thinking addresses our deepest and most personal experience of the world the experience of the present from a modern perspective combining physics and philosophy Many prominent researchers have contributed articles to the volume in which they present models and express their opinions on and in some cases also their skepticism about the subject and how it may be or may not be addressed as well as which aspects they consider most relevant in this context While Einstein might have once hoped that the present would find its place in the theory of general relativity in a later discussion with Carnap he expressed his disappointment that he was never able to achieve this goal This collection of articles provides a unique overview of different modern approaches representing not only a valuable summary for experts but also a nearly inexhaustible source of profound and novel ideas for those who are simply interested in this question *Forest and Stream*, 1908 Pre-historic Times Sir John Lubbock, 1904 Field and Stream, 1925 **The Medical times and gazette**, 1872 **The Rudder** Thomas Fleming Day, 1905 **The International** Abraham T. H. Brower, 1897 *Municipal and County Engineering*, 1918 **The Nature of the Physical World** Sir Arthur Stanley Eddington, 1928 *Bulletin of the American Museum of Natural History* Joel Asaph Allen, 1902 Comprises articles on geology paleontology mammalogy ornithology entomology and anthropology **Medical Times**, 1871 The Indian's Book Natalie Curtis Burlin, 1923 **The Stone Age in North America** Warren King Moorehead, 1910
